# BACKGROUND

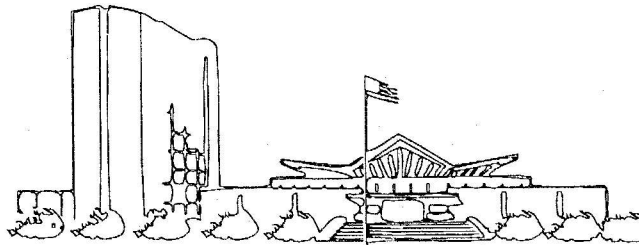

The National Library of Medicine is organizing a conference to commemorate the twenty-fifth anniversary of the establishment of the Regional Medical Programs Division at the National Institutes of Health in December, 1966. The conference will help to record the history of this innovative program and will also provide an opportunity to apply lessons learned from the RMP experience to contemporary health care problems.

The conference will address the relevant issues via papers, panels of speakers and audiovisual presentations.

A conference reception, sponsored by the Friends of the National Library of Medicine, will be held in the lobby of the Lister Hill Building at 6:00 p.m. on Thursday, December 5.
