| Planning-Continuation - South Dakota | |

CONFIDENTIALITY OF MEETINGS

Regulations of the Public Health Service provide that discussions of advisory groups shall be held confidential except as disclosure is authorized by the Administrator, HSMHA.

CONFLICT OF INTEREST

The following extract from the Department of Health, Education and Welfare General Administration Manual is called to the attention of Public Health Service Consultants:

"Advisers and consultants serving as members of public advisory committees should not participate in situations in which a violation of conflict of interest laws and regulations is likely to occur. Heads of Bureaus and Divisions should establish procedures and controls to insure that a committee member is disqualified from performing duties or rendering advice which will have a direct and predictable effect on the interests of an organization or institution with which he is associated as an employee or consultant or in which he has a financial interest. In particular, committee members should not participate in the evaluation of contract or grant proposals which will directly affect the interests of such organization or institution."
