

Issued October 18, 1911.

# United States Department of Agriculture,

OFFICE OF THE SECRETARY.

---

## NOTICE OF JUDGMENT NO. 1102.

(Given pursuant to section 4 of the Food and Drugs Act.)

---

### ADULTERATION OF CRYSTAL EGGS.

At the November term of court, 1910, the United States Attorney for the Eastern District of Missouri, acting upon the report by the Secretary of Agriculture, filed information in the District Court of the United States against the St. Louis Crystals Egg Co., a corporation, of St. Louis, Mo., alleging shipment by it, in violation of the Food and Drugs Act, on or about July 10, 1909, from the State of Missouri into the State of Minnesota of a quantity of a certain food product called "Crystal Eggs" which was adulterated.

Analysis of the product by the Bureau of Chemistry of this Department showed it to contain 1.75 per cent of boric acid. The information, therefore, alleged adulteration in that there had been added to and mixed with the product a poisonous and deleterious ingredient which rendered the article injurious to health.

On June 5, 1911, the defendant pleaded guilty and was fined \$5 and costs.

W. M. HAYS,  
*Acting Secretary of Agriculture.*

WASHINGTON, D. C., August 29, 1911.
