On May 21, 1919, the United States attorney for the District of Massachusetts, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for said district a libel of information praying the seizure and condemnation of 11 packages of Compound Extract of Cubebs with Copaiba, consigned on September 21, 1918, remaining unsold in the original unbroken packages at Boston, Mass., alleging that the article had been shipped by the Tarrant Co., New York, N. Y., and transported from the State of New York into the State of Massachusetts, and charging misbranding in violation of the Food and Drugs Act, as amended. The article was labeled in part: (Wrapper and box labels) "A valued medicine for Gonorrhœa, Gleet, Whites, etc." (Circular) "Compound Extract of Cubebs with Copaiba is Specially Prepared for the Treatment of Gonorrhœa, Gleet, and simple Whites or Leucorrhœa * * * disorders of the kidneys, bladder, prostate, vagina and urethra in which these drugs have proved their usefulness. Directions.—Gonorrhœa * * * Gleet * * * In Leucorrhœa or Whites * * * In Inflammations of the Bladder and Urethra."

Analysis of a sample of the article made in the Bureau of Chemistry of this department showed that it consisted essentially of cubebs, copaiba, and magnesium oxid.

Misbranding of the article was alleged in substance for the reason that the foregoing statements appearing on the wrapper, box label, and circular, regarding the curative and therapeutic effects thereof, were false and fraudulent in that the article did not contain any ingredient or combination of ingredients capable of producing the effects claimed for it.

On January 2, 1920, no claimant having appeared for the property, judgment of condemnation and forfeiture was entered, and it was ordered by the court that the product be destroyed by the United States marshal.

On May 26, 1919, the United States attorney for the Southern District of New York, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for said district a libel for the seizure and condemnation of 11¾ dozen bottles of Big G, remaining unsold in the original unbroken packages at New York, N. Y., alleging that the article had been shipped on or about November 1, 1918, by the Evans Chemical Co., Cincinnati, Ohio, and transported from the State of Ohio into the State of New York, and charging adulteration and misbranding in violation of the Food and Drugs Act.

Analysis of a sample of the article made in the Bureau of Chemistry of this department showed that it consisted essentially of an aqueous solution of boric acid and berberine. No hydrastine was present.

Adulteration of the article was alleged in substance in the libel for the reason that it was labeled on the carton as a compound of borated goldenseal, whereas it contained no borated goldenseal, and its strength and purity fell below the professed standard and quality under which it was sold.

Misbranding of the article was alleged in substance in the libel for the reason that the cartons, bottle labels, and booklets bore certain statements

regarding the curative and therapeutic effects of the article which were false and fraudulent in that they represented that the article was effective in the treatment, cure, or prevention of catarrh, hay fever, inflammations, irritations, or ulcerations of the mucous membranes or linings of the nose, throat, stomach, and urinary organs, for unnatural discharges of the urinary organs, inflamed, ulcerated, itching conditions of the skin and mucous membrane or linings of the mouth, nose, throat, eye and ear, inflammation of the eye, cystitis, gastritis, catarrh of the stomach, hemorrhoids, piles, throat troubles, gonorrhœa, gleet, chronic gonorrhœa, stricture, folliculitis, gonorrhœal prostatitis, spermatorrhœa, bubo, gonorrhœal cystitis, balanitis, inflammation or swelling of a lymphatic gland of the groin, leucorrhœa, whites, catarrh of the vagina, and certain other diseases, whereas the drug was not capable of producing the curative and therapeutic effects claimed for it.

7291. Adulteration and misbranding of gelatin. U. S. * * * v. 1 Drum of Gelatin. Default decree of condemnation, forfeiture, and destruction. (F. & D. No. 10274. I. S. No. 7827-r. S. No. C-1219.)

On May 15, 1919, the United States attorney for the District of Minnesota, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for said district a libel for the seizure and condemnation of 1 drum of gelatin, remaining unsold in the original unbroken package at Owatonna, Minn., alleging that the article had been shipped on or about April 16, 1919, by the W. B. Wood Mfg. Co., St. Louis, Mo., and transported from the State of Missouri into the State of Minnesota, and charging adulteration and misbranding in violation of the Food and Drugs Act. The article was labeled "Gelatine 25 lbs. Net."

Adulteration of the article was alleged in substance in the libel for the reason that glue had been substituted wholly or in part for gelatin, which the article purported to be, and for the further reason that it contained added poisonous and deleterious ingredients, to wit, copper and zinc, which might render the article injurious to health.

Misbranding of the article was alleged in substance for the reason that the statement, to wit, "Gelatine," was false and misleading and deceived and misled the purchaser, and for the further reason that it was an imitation of, and was offered for sale under the distinctive name of, another article.

On October 28, 1919, no claimant having appeared for the property, judgment of condemnation and forfeiture was entered, and it was ordered by the court that the product be destroyed by the United States marshal.
