

anxious to know if it kept up its reputation, I have inquired of almost every one who used it, and they have invariably told me that it cured their cows immediately. The following named gentlemen are a few who have used the Garget Cure: * * * I am now having so many orders for this Garget Cure that I have concluded to put it up in bottles of three doses each (enough to cure any case of Garget), and introduce it to the public, hoping that it may be the means of saving many valuable cows. Who would not be willing to pay the price of a bottle of this Medicine (50 cents) rather than dose a sick cow two or three weeks with garget root or herb tea; or roweling, which is a troublesome matter; or even employing a cow doctor, who pretends to know all about sick cattle and don't know anything, and, after she is dead and buried, brings in a bill, 'For doctoring your cow till she died, Five Dollars,' when two or three doses of this preparation, one dose given every 24 hours in a little meal or other feed, will cure her. It is seldom necessary to give the three doses, as one or two are generally sufficient to perfect a cure, unless in very obstinate cases. One dose given every month will positively Prevent any cow ever having the garget—and it is well to keep it on hand and give a dose occasionally. Those who keep a herd of valuable cows, need not be afraid to give it according to directions, as it is an entirely safe, although powerful remedy. In my experience as a Druggist, I see many Proprietary Medicines recommended for cure of all kinds of diseases—no matter if the diseases are entirely opposite in character, they cure everything. This Medicine is Not Recommended for All Diseases of Cattle. Garget It Will Cure, Surely and Speedily! * * * Each bottle is sufficient for cure of one animal. * * * Directions for Giving the Garget Cure. * * * Special Directions.—When the udder or teats are swollen, or bunches appear on the bag, rub the bag or teats with the Garget Cure diluted with water, twice a day, and in two or three days the bunches or swelling will disappear. * * * [Testimonials appearing in circular] 'Gents:—I had a cow that had the garget; would have sold her for five dollars. I used one bottle of Wallingford's Garget Cure, and seventy-five dollars would not buy her; the cow is now well.' * * * 'I can most fully recommend Wallingford's Garget Cure, as I have known several instances where it has performed cures in bad cases, even when cows have given bloody milk, and almost lost the use of one teat.' * * * 'Wallingford's Garget Cure. I have sold it and find it all it claims to be: sure cure.' * * * 'I had a cow whose bag was swelled bad; gave milk from two teats only. Used Wallingford's Garget Cure, and two doses cured her; have had no trouble since.' * * * 'He says two doses cured her, and she had it "the worst kind."' * * * 'I have a valuable heifer that was taken with Garget last June. I tried every remedy that I could think of; one night she was down in the pasture and could not get up. I gave her one dose of the Garget Cure, and instead of finding her dead, as I expected to in the morning, she was up and feeding. I gave her the remainder of the bottle, and she was well in four days.'

On December 14, 1931, no claimant having appeared for the property, judgment of condemnation and forfeiture was entered, and it was ordered by the court that the product be destroyed by the United States marshal.

ARTHUR M. HYDE, *Secretary of Agriculture.*

19060. Misbranding of Walker's Old Indian health tonic. U. S. v. 2 Dozen Bottles of Walker's Old Indian Health Tonic. Default decree of condemnation, forfeiture, and destruction. (F. & D. No. 26976. I. S. No. 15967. S. No. 5177.)

Examination of the drug product, Walker's Old Indian health tonic, showed that the bottle label bore statements representing that the article possessed curative and therapeutic properties which it did not possess.

On September 23, 1931, the United States attorney for the Middle District of North Carolina, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for the district aforesaid a libel praying seizure and condemnation of two dozen bottles of Walker's Old Indian health tonic at Burlington, N. C., alleging that the article had been shipped by the Walker Medicine Co., from Atlanta, Ga., on or about April 11, 1931, and had been transported from the State of Georgia into the State of North Carolina, and charging misbranding in violation of the food and drugs act as amended.

Analysis of a sample of the article by this department showed that it consisted essentially of magnesium sulphate, ferric chloride, a trace of quinine sulphate, and water.

It was alleged in the libel that the article was misbranded in that the bottle label bore the following statements regarding the curative or therapeutic effects of the said article, which were false and fraudulent, since it contained no ingredient or combination of ingredients capable of producing the effects claimed: (Bottle label) "Walker's Old Indian Health Tonic The Unfailing Remedy for Laziness and a Drowsy, Tired, Sleepy Feeling. * * * Indigestion, * * * Dizziness, Sick Headache, Numbness or Chills, Kidney or Bladder Troubles, * * * Piles, Jaundice, Dropsy * * * Weakness, Tired Feeling, Stimulates and Purifies the Blood."

On December 22, 1931, no claimant having appeared for the property, judgment of condemnation and forfeiture was entered, and it was ordered by the court that the product be destroyed by the United States marshal.

ARTHUR M. HYDE, *Secretary of Agriculture.*

19061. Misbranding of Ru-Co the Wonderful. U. S. v. 40 Bottles, et al., of Ru-Co the Wonderful. Default decrees of condemnation, forfeiture, and destruction. (F. & D. Nos. 27085, 27202. I. S. Nos. 24247, 36892. S. Nos. 5313, 5344.)

Examination of a drug product, known as Ru-Co the Wonderful, showed that the circular shipped with the article contained statements representing that it possessed curative and therapeutic properties which it did not possess.

On October 19, 1931 and November 2, 1931, the United States attorney for the Eastern District of Louisiana, acting upon a report by the Secretary of Agriculture, filed in the District Court of the United States for the district aforesaid libels praying seizure and condemnation of two lots of the said Ru-Co the Wonderful, consisting of 40 bottles and 72 bottles, respectively, remaining in the original unbroken packages at New Orleans, La., alleging that the article had been shipped by the Clyde Collins Chemical Co. (Inc.), from Memphis, Tenn., in part on or about August 12, 1931, and in part on or about September 28, 1931, and had been transported from the State of Tennessee into the State of Louisiana, and charging misbranding in violation of the food and drugs act as amended.

Analysis of a sample of the article by this department showed that it consisted essentially of sodium sulphate (Glauber's salt), magnesium sulphate (Epsom salt), and small proportions of citric acid, tartaric acid, and a carbonate, sweetened with saccharin.

It was alleged in the libels that the article was misbranded in that the following statements regarding the curative or therapeutic effects of the said article, appearing in the circulars, were false and fraudulent, since the article contained no ingredient or combination of ingredients capable of producing the effects claimed: (Statements in circulars accompanying both lots) "The direct effect of Ru-Co is to thoroughly cleanse the body of food waste and fermentation and to stimulate the elimination of acids and impurities from the blood. Ru-Co is a positive blood and digestive purifier and corrective of auto-intoxication. We have in our files hundreds of authenticated reports of cases benefited by Ru-Co. * * * Rheumatism Acute—Chronic—Sciatica Acute Rheumatism affects the smooth membrane of the joints and often extends to the Heart and Brain. There is coated tongue and constipation. Ru-Co offers a treatment which has proven its merit in thousands of cases. Chronic Rheumatism is aggravated by wet, cold weather. After long continuance, the joints may become enlarged and stiff. Muscular or Sciatica (Lumbago) causes great suffering and often leaves a hopeless cripple unless properly treated. Directions for Rheumatism: Take two level teaspoonfuls Ru-Co before breakfast until you have taken at least two bottles. * * * Cause of Rheumatism. Most authorities now agree that it is the result of too much acid in the system formed by accumulation of poisonous waste matter. Ru-Co goes right to the cause of the trouble. It cleans the system of undigested food, stops the acid-forming fermentation and stimulates the liver and other organs to drain away the acids and other impurities in the blood, thus relieving the muscles and joints of irritation. If you are a sufferer from Rheumatism, take this sample of Ru-Co tonight before supper. Watch how it makes you feel better next day. Watch how it goes right to the source of the trouble and, from the very first dose, starts to rid your system of the poisonous waste and fermentation which have caused you to suffer. * * * Also, colds so frequently lead on to other more dangerous diseases. Drainage from nose, throat and lungs enters the digestive system and is absorbed into the blood, causing headache and general pain, depression and loss of vitality. Ru-Co positively cleans
