FOREWORD

This edition brings the Social Welfare Law up to date through 1946. Chapter 200 of the Laws of 1946, providing for the integration and simplification of the local public welfare system, embodies the most comprehensive changes ever made in public welfare administration in New York State at any one time.

The new public welfare system is based upon a philosophy which emphasizes maximum local determination and maximum local initiative. This philosophy is expressed in a series of optional plans, to be worked out by the localities themselves, which offer full opportunities to the counties, the cities, and the towns to play vital roles in the administration of public welfare.

Through these options two basic and simple objectives are sought: (1) a convenient, local welfare office in every community, where the residents may apply for whatever type of assistance or care they may need; and (2) a single, integrated, local welfare staff to make social investigations of such applications.

Other fundamental changes in the law include: increases in state aid which stabilize local costs of public assistance programs at 20 percent; abolition of the complicated and archaic settlement system; provision for advance allotment of state and federal welfare funds to the localities, to replace the old system of reimbursing the localities for the state's share of welfare costs after the localities had made the initial expenditures; and a more constructive and systematic basis for state-local relations, under which county and city public welfare districts present plans of welfare administration to the State Department of Social Welfare for review, making it possible for the Department to focus its attention on the whole welfare set-up, rather than on individual elements as in the past.

The need for correction of the old public welfare patchwork was first pointed out by Governor Thomas E. Dewey in his annual message in 1943. In his 1944 message, the Governor urged the Legislature to study the problem and make recommendations for its solution.

In response, the 1944 Legislature created a Special Committee on Social Welfare and Relief of the Joint Legislative Committee on Interstate Cooperation, headed by Assemblyman Harold C. Ostertag, to study the whole complex of local public social services and to draft a plan to modernize these services. The 1944 Legislature also established the Commission on Municipal Revenues and Reduction of Real Estate Taxes, under the leadership of State Comptroller Frank C. Moore, to study the entire field of state-local fiscal relationships, including state aid for public welfare programs. The Commission and the Committee submitted their reports to the Legislature in 1946.

With but one dissenting vote, the 1946 Legislature passed legislation based upon the recommendations of the Ostertag Committee and the Moore Commission. This bill, signed by the

Governor, became Chapter 200 of the Laws of 1946, effective April 1, 1946.

A word of appreciation is due the individuals in the Department who compiled, edited, and indexed this volume: Felix Infausto, Counsel; Mrs. Anne M. Keegan of the Bureau of Research and Statistics; and Joseph Strack, Welfare Publications Editor.

The commissioner or the public welfare official receiving such notification may accept the responsibility for the repayment of the reasonable cost of such care given by the district where such local charge resides or is found, or he may within thirty days from the date of the receipt of such notification file a protest with the person sending the notification contesting the allegation that such local charge last resided in his district continuously for six months in the two years immediately prior to the granting of such care. If the cost of such care, pursuant to section seventy, would be a chargeback to the town or city where such local charge last resided continuously for six months in the two years immediately prior to the granting of such care, the commissioner on receipt of the notification shall immediately notify the town or city public welfare officer, or other city officer authorized to receive the same, of the allegation that such local charge last resided in such town or city continuously for six months in the two years immediately prior to the granting of such care. The department shall render a decision and in connection therewith may hold a hearing, notifying the public welfare officials involved. The department upon rendering the decision shall file copies thereof in the offices of the public welfare officials of the public welfare districts or the old age assistance district, involved, as the case may be. 2. (a) The notification required shall be made within one year of the date when care was first granted by the public welfare official giving notice.

(b) A notification and protest required by this section shall be made in the form prescribed or approved by the department and shall be sent by registered mail.

(d) No reimbursement may be claimed for the expense of the care of such person for a period beginning more than thirty days prior to the date of the notice.

§ 120. **Collection of support from a public welfare district.** If a public welfare district shall fail to pay for the hospital or other institutional care given by another public welfare district to a person for whose hospital or institutional care it is responsible, the commissioner of the public welfare district where such person is cared for may institute an action in the supreme court to recover the same.

§ 162. Employment furnished by towns. 1. (a) The town board of any town in which home relief is a town charge may acquire for the town by purchase, for the purposes of this section, and appropriate town moneys therefor, wood lots within the town, or the right to cut, remove and have the timber on such a lot. Within the meaning hereof, a wood lot is a parcel of substantially unimproved land having a growth of timber suitable for firewood, but not of a size generally for use as lumber.

(b) Such a lot, or such a right, having been so acquired, the town welfare officer shall employ in cutting, cording, removing, working into firewood and distributing the timber so acquired, or growing on the lot or lots so acquired, persons receiving town home relief for themselves and/or their families, or members of such families able to work, at wages in accordance with a scale fixed by the town board, payable by the supervisor, from town moneys appropriated therefor by such board, on payrolls certified by such welfare officer in a form to be prescribed by the department.

(c) The wood so cut shall be sold and distributed, for fuel, to persons who and/or whose families are then receiving relief from the public welfare funds of the town, or may be supplied without sale, and as added relief, to such of them as are in need of fuel and whose allowance from such funds or earnings from work herein provided for, or from both, are not adequate. § 163. **Application.** The provisions of any city charter or other local or special law forbidding the granting of outdoor relief shall not apply to the granting of home relief under this chapter.

§ 164. **Work relief.** 1. Legislative intent. In view of the continuing relief problem due to unemployment and the number of needy employable persons receiving home relief who cannot be given employment through the work projects administration either because they are ineligible under the law or the rules governing employment on projects of the work projects administration or because of lack of available jobs on such projects, the legislature hereby declares that in its judgment it is advantageous to the public welfare that local authorities be authorized to provide home relief in the form of wages for work relief on projects administered by local units of government. In conferring such authority on local units of government it is the intention of the legislature that the counties, cities and towns shall utilize fully employment available for eligible recipients of home relief through projects maintained by the work projects administration and that the work relief projects carried on by a city, county or town under the authority hereinafter conferred shall be in addition to and not in lieu of projects of the work projects administration sponsored or to be sponsored by the county, city or town. Under the conditions and subject to the limitations hereinafter specified county and city public welfare districts and cities and towns responsible for administration of home relief shall be authorized to administer work relief.

The term 'work relief' as used in this section shall be deemed to be within the definition of 'home relief' as defined in section ninety-three of this chapter and shall be deemed to be within the terms 'the local share of home relief,' and 'home relief' as defined in the local finance law.

(ii) may make such provisions as it deems necessary as to the method of administration of work relief projects and of disbursement of funds appropriated therefor.

(b) In a county public welfare district where towns administer home relief, the legislative body of the county may authorize the employment of eligible persons from town home relief rolls on one or more projects operated by the county and pursuant to such authorization a town may assign eligible persons to work on a county project and shall pay the cost of the work relief wages of persons so assigned and employed in the manner directed by the legislative body of the county.

5. Wages. (a) The work relief committee shall fix the rates of work relief wages which shall be the rate paid for similar work on work projects administration projects in the district or if there be no such rate the minimum rate paid by the local unit of government for similar work.

(b) Work relief wages shall be paid in cash.

(c) The number of days of work to be given each person shall be determined by the amount of the budget deficit of the recipient and his family computed on local home relief budget schedules. No person shall be required to work for more than the number of days necessary to earn such amount or be paid more than such amount. No person shall be required to work more than eight hours in a day or more than forty hours in a week.

(d) All persons employed on work relief projects undertaken under this section shall be covered by workmen's compensation or by a compensation plan having the approval of the state department.

7. Financing of work relief. (a) Work relief wages shall be paid from funds appropriated for home relief.

(b) Estimates, appropriations and supplemental appropriations for the cost of work relief projects other than work relief wages shall be made in the same manner as for the local share of home relief, and all provisions of law in respect to the financing of the local share of home relief and to levying of taxes therefor shall be applicable to the financing of such costs of work relief projects.

8. State reimbursement. (a) A county or city department of public welfare desiring state reimbursement for work relief shall submit to the department an application for approval of the work relief plan of the city or county. When work relief is administered by towns the county department of public welfare shall in like manner submit the work relief plans of the towns to the department.

§ 214. **Periodic reconsideration of old age assistance.** All grants of assistance under this title shall be reconsidered from time to time, or as frequently as may be required by the rules of the board and the regulations of the department. After such further investigation as the public welfare official may deem necessary or the department may require, the amount and manner of giving assistance may be changed or the assistance may be withdrawn if such official finds that the recipient's circumstances have changed sufficiently to warrant such action. It shall be within the power of the public welfare official at any time to cancel and revoke assistance for cause, and he may for cause suspend payments thereof for such periods as he may deem proper, subject to review by the department, as provided in the preceding section.

As amended by L. 1946, C. 200, eff. April 1, 1946.

§ 216. **Rules, regulations and forms.** The department shall 1. supervise the administration of old age assistance by the public welfare officials,

2. prescribe the form of and print and supply to the public welfare officials blanks for applications, reports, affidavits and such other forms as it may deem advisable,

The department shall act for the state in any negotiations relative to the submission and approval of such plan and make any arrangement which may be necessary to obtain and retain such approval and to secure for the state the benefits of the provisions of such federal act relating to old age assistance. The board shall make such rules, not inconsistent with law, as may be necessary to make such plan conform to the provisions of such federal act and any rules or regulations adopted pursuant thereto. The department shall make reports to the social security board created by such federal act in the form and nature required by such board and, in all respects, comply with any request or direction of such board which may be necessary to assure the correctness and verification of such reports.

2. The department of taxation and finance shall accept and receive any and all grants and money awarded to the state for federal old age assistance pursuant to such social security act. All moneys, so received, shall be deposited by the department of taxation and finance in a special fund or funds and shall be used by the state exclusively for old age assistance and administration thereof under the provisions of this title. One-half of the amount received from the United States for the administration of old age assistance shall be used by the state for the administration of this title, in accordance with schedules approved by the director of the budget. Such money shall be paid from such fund or funds on audit and warrant of the comptroller upon vouchers of the commissioner.

3. (a) When the moneys allotted to the state by the social security board for old age assistance for any quarter shall have been received by the department of taxation and finance, the department shall, as soon as possible, certify to the comptroller the amount to which each old age assistance district is entitled for such quarter and such amount shall be paid out of the state treasury after audit by the comptroller to the respective old age assistance districts.

(b) In like manner one-half of the allotment received by the state from the United States for administration of old age assistance shall be paid each quarter in advance to the old age assistance districts in the ratio which the amount allotted for old age assistance in such district bears to the total amount allotted to the state.

4. So long as the state shall receive grants in aid for old age assistance from the United States pursuant to the provisions of the federal social security act, the state shall pay to the United States such part of the net amount collected from the estate of a recipient of old age assistance as partial or total repayment for old age assistance as may be required by the social security board pursuant to the social security act.

§ 220. **Reimbursement and advances by the state.** 1. At the end of each quarter each old age assistance district shall submit to the department in such form as the department may require, a verified accounting of its financial operations during such quarter together with a claim for reimbursement of a part of its expenditures as herein provided.

2. The department shall thereupon certify to the comptroller for payment by the state to the credit of each old age assistance district as partial reimbursement for its expenditures under this title during such quarter such amount as shall be equal to the sum of

(a) the difference between eighty per centum of its total approved expenditure for assistance granted to local charges and the amount of federal funds received or to be received on account of such assistance, and

(b) the difference between its total approved expenditure for assistance granted to state charges and the amount of federal funds properly received on account of such assistance, and

(c) the difference between eighty per centum of its approved administrative expenses for old age assistance and the amount of federal funds received on account thereof.

3. For the purpose of reimbursement by the state, administrative expenses shall include only the salary paid to any person employed by the public welfare official for the purpose of administering old age assistance under this title. If any person shall be employed only for part time in the administration of old age assistance, only a proportionate part of the salary paid to such person shall be included as an administrative expense. No state reimbursement shall be made for the salary of any person who, in the opinion

of the department, at the time of appointment, lacks the qualifications necessary for the work for which employed or who, after a reasonable trial period, is considered by the department unable to do satisfactory work.

4. The department is authorized in its discretion to make advances to the several old age assistance districts against the state reimbursement provided for in this section, and the amounts of such advances shall be paid out of the state treasury from moneys appropriated or made available for the payment of such state reimbursement to the respective old age assistance districts after audit by the state comptroller. Advance payments to the several old age assistance districts from funds received by the state from the United States and advances and reimbursements from state funds shall be approved by the department only for

(a) old age assistance granted under the provisions of this title and in accordance with the rules of the board and regulations of the department, and

(b) for administrative costs in old age assistance districts in which methods of administration are maintained in accordance with such law, rules and regulations.

Subdivisions 2, 3 and 4 as amended by L. 1946, C. 200, eff. April 1, 1946; section heading amended by same law; subdivision 3 re-amended by L. 1946, C. 201, eff. April 1, 1946.

Section 221 repealed by L. 1946, C. 200, eff. April 1, 1946.

§ 222. **Provisions governing operation of title upon discontinuance of federal moneys.** Upon the discontinuance of federal moneys for the purposes of this title, the provisions of this title shall, nevertheless, continue in full force and effect except that the provisions of subdivision two of section two hundred and twenty shall cease to be effective and the state shall thereafter reimburse the old age assistance districts in accordance with the rules of the board and regulations of the department for

(a) eighty per centum of the cost of old age assistance so granted to local charges, and

(b) the entire cost of assistance so granted to state charges, and

(c) eighty per centum of approved administrative expenses for old age assistance.

As amended by L. 1946, C. 200, eff. April 1, 1946.

§ 223. **Assets.** The ownership of real or personal property by an applicant for old age assistance or by the spouse of such applicant, either individually or jointly, or of insurance on the life of the applicant, shall not preclude the granting of old age assistance if the applicant is without the funds necessary for his support. The public welfare officials may, whenever practicable, require that the old age assistance district be given a claim on such property and that such insurance be secured insofar as practicable, in such a manner as to insure payment of the cost of burial and the repayment to the old age assistance district of the cost of old age assistance granted to such person. The public welfare official may

1. in case of ownership of real property, take a deed or mortgage under the provisions of section one hundred six or a lien under the provisions of section two hundred twenty-four provided that property covered by such deed or mortgage shall not be sold or such lien enforced by the public welfare official prior to death of the recipient of old age assistance, unless the department shall have given its approval in writing,

2. require an assignment of an insurance policy on the life of the recipient to the public welfare official in his official capacity,

3. require that assets in the form of money or bank account in excess of the amount needed for burial be utilized for the support of the applicant and that the amount needed for burial be deposited in the name of the public welfare official or in a joint account in the name of the applicant or his representative and the public welfare official,

4. require the assignment or transfer of the title of other assets to the public welfare official to facilitate disposal of such assets at such time as may be determined by the public welfare official with the approval of the department, or required by the department.

§ 224. **Lien on real property.** 1. If an applicant for old age assistance or the spouse of such applicant, either individually or jointly, owns real property, the public welfare official may take a lien on such property as a condition of granting old age assistance. Such a lien shall be taken as hereinafter provided.

2. The applicant and the spouse of such applicant shall execute and deliver to the proper public welfare official an instrument in writing and under seal, acknowledged in the same manner as deeds for real property, creating a lien upon such real property for the purpose of reimbursing the old age assistance district for all moneys paid or to be paid for such assistance. Such lien shall contain a description of such real property and a provision for reimbursement of continuous future assistance and shall be recorded and indexed in the book of deeds in the county clerk's office of the county wherein such real property is located.

3. Upon the recording of such lien, the old age assistance district and state shall have a lien upon such real property for the amount of assistance paid or to be paid, which lien shall be prior to any lien thereafter recorded and shall be notice to a subsequent purchaser, assignee or encumbrancer of the existence and nature of such lien.

4. Should the person to whom assistance shall have been granted, or his heirs at law, next of kin or personal representatives, reimburse the public welfare district for the amount due by the terms of such lien, the public welfare official shall execute and deliver a satisfaction thereof, upon filing which, the record shall be marked by the county clerk "satisfied and discharged" with the date thereof.

5. Upon the death of the person to whom such assistance shall have been granted, or prior to such time if the department shall

have given its approval in writing, the old age assistance district may enforce such lien in the manner provided by article three of the lien law.

§ 225. **Burial of recipients of old age assistance.** 1. (a) The amount to be reserved from assets to pay the cost of burial of a recipient of old age assistance shall be determined by the public welfare official with the approval of the department.

(b) Where the cost of burial cannot be met from other sources, the necessary amount shall be a prior claim against the net amount received from such assets and shall take precedence over the claim of the old age assistance district for old age assistance granted.

(c) If funds are not available from the assets, the old age assistance district shall pay the cost of burial, subject to later reimbursement in whole or in part from the net amount recovered from the assets.

2. If the recipient of old age assistance has no assets nor insurance or the proceeds of such assets or insurance are not sufficient to pay the cost of burial, and there are no relatives or friends able or willing to become responsible for such expense in whole or in part, the old age assistance district furnishing old age assistance at the time of death of the recipient shall pay the total or partial cost of burial. Such expenditure shall be a charge on the old age assistance district granting assistance, subject to reimbursement by the state for a state charge.

Subdivision 2 as amended by L. 1946, C. 200, eff. April 1, 1946.

§ 226. **Distribution of recoveries.** 1. The net amount recovered from the assets of a recipient of old age assistance shall be used to pay the cost of burial and repayment to the old age assistance district for old age assistance granted.

2. The old age assistance district shall pay to the state the proportionate share of the net amount recovered from the assets of a recipient of old age assistance less any authorized expenditures for the cost of burial, to which the state and the United States is entitled, because of partial payment of the old age assistance granted. The manner and amount of such payment shall be determined under the regulations of the department.

3. If any balance remains it shall be paid to the estate of such recipient or to the persons entitled thereto.

4. The proceeds or moneys due the United States shall be paid or reported in such manner and at such times as the federal social security board may direct.

§ 227. **Application.** 1. Other provisions of this chapter not inconsistent with this title shall be applied in carrying out the provisions of this title.

2. The provisions of any city charter or other local or special act forbidding outdoor relief or which are inconsistent with the provisions of this title shall not apply to the assistance provided by this title, nor impair nor limit the state-wide operation of this title, according to its terms.

2. The commissioners of public welfare shall be responsible for the administration of assistance to the blind in their respective districts, unless such responsibility is delegated to another public welfare official pursuant to the provisions of title three-a of article three.

4. The assistance shall be provided in the person's own home, or in a suitable family home, or by payment of board in a suitable boarding house, or in a private nursing home, or in a private institution approved by the department. Temporary care in a hospital may be provided with the approval of the department. Under regulations to be established by the department, assistance may be granted to eligible applicants who are receiving training or education or who are waiting for employment.

Subdivision 4 as amended by L. 1944, C. 400, eff. March 31, 1944.

5. Receipts of state reader's fees shall not preclude the granting of assistance under this title.

§ 287. **Quarterly estimates.** Each public welfare district shall submit to the department quarterly estimates of its anticipated expenditures for aid to the blind and administrative expenses not less than thirty days before the first day of each of the quarters beginning on the first day of the months of July, October, January and April, in such form and together with such other information as the department may require.

All moneys so received shall be deposited by the department of taxation and finance in a special fund or funds and shall be used by the state exclusively for the assistance to the blind and the administration thereof under the provisions of this title. Subdivision 2 as amended by L. 1941, C. 82, eff. Mar. 1, 1941.

3. When the moneys allotted to the state by the social security board for any quarter shall have been received by the department of taxation and finance, the department shall, as soon as possible, certify to the comptroller the amount to which each public welfare district is entitled for such quarter and such amount shall be paid out of the state treasury after audit by the comptroller to the respective public welfare districts.

At the end of each quarter each public welfare district shall submit to the department in such form as the department may require, a verified accounting of its financial operations during such quarter together with a claim for reimbursement of a part of its expenditures as herein provided.

2. The department shall thereupon certify to the comptroller for payment by the state to the credit of each public welfare district as partial reimbursement for its expenditures under this title during such quarter such amount, as shall be equal to the sum of

If any person shall be employed only for part time in the administration of assistance to the blind, only a proportionate part of the salary paid to such person shall be included as an administrative expense. Advance payments to the several public welfare districts from funds received by the state from the United States, and reimbursements and advances from state funds shall be approved by the department only for

(a) assistance to the blind granted under the provisions of this title and in accordance with the rules of the board and regulations of the department, and

(b) for administrative costs in public welfare districts in which methods of administration are maintained in accordance with such law, rules and regulations.

Subdivisions 2 and 4 as amended by L. 1946, C. 200, eff. April 1, 1946; section heading also amended by same law.

§ 290. **Provisions governing operation of title upon discontinuance of federal moneys.** Upon the discontinuance of federal moneys for the purposes of this title, the provisions of this title shall, nevertheless, continue in full force and effect except that the cost of assistance provided for by this title shall be borne by the public welfare districts subject to reimbursement by the state to the extent of

Such reports shall be carefully and systematically made to assist the department in maintaining a complete register of the wholly or partially blind persons in the state.

§ 292. **Recovery from estate.** On the death of any blind person receiving assistance under this title the total amount of such assistance paid shall be allowed as a claim against the estate of such person after the cost of burial of the recipient, which cost shall be determined by the public welfare official with the approval of the department, and shall be paid or set aside for this purpose. No claim shall be enforced against any real estate of a recipient while it is occupied by the surviving spouse, or a dependent.

3. The department shall have the same powers and duties in relation to assistance to the blind as for old age assistance.

The department may also, on its own motion, review any decision made, or any case in which a decision has not been made, by the proper public welfare official. § 354. **Investigation of complaints.** Any person who has knowledge that aid to dependent children is being improperly granted or administered may file a verified complaint in writing with the department setting forth the particulars of such violation and the department shall have power after proper investigation to revoke allowances or to make such order as it may deem just and equitable and such order shall be complied with by the public welfare official.

2. Such certificates and licenses shall be valid for not more than one year after date of issue but may be renewed or extended subject to rules established by the board.

3. No such license or certificate shall permit the reception for board of more than six children and if there are children not received for board living in the home of the person to whom such license or certificate is issued, whether children of such person or

otherwise, the sum of the number of such children and of the number of children permitted to be received for board by such license or certificate shall not exceed six, excepting, however, that such license or certificate may permit the reception for board of more than six brothers and/or sisters of the same family.

4. The board shall establish and may alter or amend rules governing the issuing and revocation of such licenses and certificates and prescribing standards, records, accommodations and equipment for the care of children received under such licenses and certificates.

§ 379. **Revocation of certificates and licenses.** 1. A certificate to receive, board or keep any child may be revoked for cause by the authorized agency by which issued and any such certificate or license may be revoked for cause by the commissioner.
