LAZELL, MARSH & GARDINER,

IMPORTERS AND JOBBERS,

Nos. 10 & 12 Gold Street, }
Laboratory, No. 7 Gold Street, } **New York.**

TERMS: Net Cash, in par Funds. Prices subject to changes in the market.

New York, April 23d, 1881.

DEAR SIR:

We have the pleasure to hand you herewith our Drug List, with prices corrected to date. Our friends will please remember that these quotations refer to moderate quantities; for large quantities and especially for full packages, more favorable prices may generally be expected.

Our terms are Cash, in 30 days. Bills not paid at maturity will be subject to draft.

Parties ordering for the first time will see the necessity of **giving references, or of enclosing Draft to cover.**

As we have numerous requests to forward small articles by mail, we would inform our friends that **no liquids, powders, nor any articles enclosed in glass can be sent by mail.**

All packages sent or received at the New York P. O. are opened, and if there be anything contained which is at variance with the law, letter postage on the package is rigidly exacted.

Any writing upon packages of Merchandise, other than the mailing directions, subjects the package to letter postage.

All responsibility for any damage, or loss of goods that may be sent by mail, must be assumed by the purchaser.

Pledging our best endeavors in behalf of our friends, and soliciting the commands of those in the trade with whom we have not hitherto had the pleasure of any correspondence.

We remain, faithfully yours,

LAZELL, MARSH & GARDINER.

SUGAR-COATED PILLS & GRANULES,

MANUFACTURED BY

BULLOCK & CRENSHAW, Philadelphia.

These Pills have now been before the profession for more than fourteen years. From the first, conscientious care has been observed with regard to the quality of the medicines entering into them, and to the accuracy and completeness with which they have been combined and divided. Experience and skill have been eagerly availed of to bring them, day by day, a step nearer perfection, and it is believed that the Pills of this house are equalled by no other products of the same kind, and that they excel all others in their ready solubility; any one who will cut open one of their Quinine Pills will need no further proof that perfection has been attained in this important point.

We have been induced to urge the sale of these Pills by the feeling of satisfaction resulting from the accuracy, care, reliability and skill of the manufacturers.

PHARMACEUTICAL PREPARATIONS,

MANUFACTURED BY

JOHN WYETH & BRO., Philadelphia.

In addition to our regular price list, we ask attention to the accompanying one of Messrs John Wyeth & Bro of Philadelphia. We have sold their preparations largely for years, and the increased demand and many inquiries, necessitates our issuing a special list. The high reputation enjoyed by the Manufacturers is a guarantee that the articles prepared by them will be found as represented. "Compressed Pills" are a comparatively recent addition to their list, and present such decided advantages over coated pills by reason of their smaller size, flattened shape, and greater solubility, that they deserve your consideration. All their preparations will be supplied at the Manufacturer's lowest prices.

DRUGGISTS' SUNDRIES.

The preceding list of Druggists' Sundries is but a portion of the many articles which we keep regularly in stock, and to which we invite the critical attention of our customers and of other purchasers of goods in this line.

Our stock is well selected, bought at the closest figures, and we can supply purchasers at the lowest market rates.

Lazell, Marsh & Gardiner's

Laboratory Products.

The attention of Pharmacists is called to the following important PHARMACEUTICAL PRODUCTS, which are but a few of the many articles made in our laboratory, all of which are of unexceptionable quality.

Medicinal Fluid Extracts

of which our list embraces about one hundred and fifty kinds.

These are all made by COLD PERCOLATION, and, UNLIKE many of the kinds offered for sale, are RELIABLE and of full standard strength. With one exception, each fluid ounce contains all the medicinal virtues of one troy ounce of the drug from which it is made.

Citrate of Iron and Quinia

containing over Ten per cent. of the Alkaloid Quinia AND PERFECTLY SOLUBLE in cold water. Much of this preparation offered for sale is deficient in Quinia strength.

Saccharated Pepsin.

We have for the past five years been manufacturers of this article, and it has always been known favorably as being entirely soluble, of full strength and acceptable quality.

A full special list of all our Pharmaceutical and Chemical products will be furnished on application.

POWDERED MEDICINAL EXTRACTS

The popularity of Fluid Extracts among medical men, as well as in general use, is due in part to the fact that when properly manufactured, the finished product represents in *one minim*, the medicinal activity of *one grain* of the drug used.

The official **Solid Extracts** have never been made to conform to any similar standard, and by the loose method pursued by some in their manufacture, they have proved quite variable in their medicinal activity.

To place our **Powdered Medicinal Extracts** on a more scientific basis, and to insure more satisfactory use of the same, we now state on the label of each bottle, the *exact amount of crude drug* which *each grain of Powdered Medicinal Extract* represents, and this invariably corresponds with the medicinal activity of the Official Standard of the U. S. Pharmacopœia.

Our **Powdered Medicinal Extracts** will stand any normal degree of heat unchanged and unimpaired, but they have a tendency to absorb moisture from the atmosphere in hot, damp weather, if the bottles are loosely corked, and this cannot be avoided without a change in manufacture, which *would destroy their reliability* as medicinal remedies.

In this respect our **Powdered Medicinal Extracts** differ from many others, which claim the merit of withstanding such changes, but do this at the expense of medicinal activity.

If the bottles are *kept well corked*, the risk of their cohering into a solid mass is greatly lessened.

We ask for our **Powdered Medicinal Extracts** a trial, feeling assured they will meet the entire desire of both Physician and Pharmacist.

We commend them specially to those Pharmacists who prepare Compressed Pills and Suppositories as being of superior advantage to the use of Solid Extracts.

SACCHARATED PEPSIN.

We were among the first to manufacture this preparation on a large scale, and our product has been received with great favor by the trade during the past four years.

We have now perfected a "new process" for its manufacture, whereby we obtain a Pepsin free from animal odor, mucus, and inorganic salts, and we claim that for perfect solubility and standard digestive power, our Saccharated Pepsin cannot be excelled.

When desired in a fluid form, the following is suggested:

Saccharated Pepsin, 64 grains; Water, 5 fluid ounces; Muratic Acid, 1 fluid drachm.

Dissolve, filter, and add Glycerine, 3 fluid ounces. As Alcohol injures the properties of Pepsin, Elixirs or preparations containing alcohol are not reliable forms of administering this remedy.

NOTE.—Pepsin, when first adopted by the Profession, was used in doses of from one to five grains. From five to thirty grains are now given with most satisfactory results.

MEDICAL JURORS AWARD

"Originality, Reliability and General Excellence of Manufactures."

SEABURY & JOHNSON'S

PHARMACOPŒIA AND MEDICINAL

India Rubber Porous & Spread Plasters.

Pharmacists and druggists will have the kindness to bear in mind, that we manufacture but

ONE QUALITY

of Medical and Surgical Plasters. When a physician prescribes an officinal preparation, he invariably expects such article to be of pharmacopœia strength. To depart from established formula, or to cheapen medicinal preparations by the introduction of inferior drugs or extracts, is simply reprehensible. Such preparations not only baffle the acknowledged skill of practitioners, but it also reflects disadvantageously, the judgment and intelligence of the dispensing pharmacist and druggist. It has never been our aim, and never will be, to calculate how cheap we can produce a suspicious class of medicinal articles.

The extensive demand, united with OUR UNEQUALLED FACILITIES for the economical production of our specialties, enables us to offer the best quality of *elegant and unimpeachable goods at exceptionally low prices*. They are skillfully made of purified india rubber, selected drugs, and incorporated with an unquestionable quality of alcoholic medicinal extracts. Every pharmacopœia article is warranted to be of proper strength and guaranteed to give *perfect satisfaction* in every respect.

ANALYSIS OF BELLADONNA PLASTERS.

—BY—

Prof. R. Ogden Doremus.

Messrs.

SEABURY & JOHNSON :

{ BELLEVUE HOSPITAL MEDICAL COLLEGE,
NEW YORK, Sept. 7, 1878

"Gentlemen:—I obtained from Messrs. W. H. Shieffelin & Co., of this city, samples of Belladonna Plasters prepared by Grosvenor & Richards, Boston; Mitchell's Novelty Plaster Works; Seabury & Johnson, New York and London. I have examined these varieties for the purpose of determining which possesses the largest quantity of Atropine. I employed equal surfaces of each, and **my analysis demonstrated that Seabury & Johnson's contains the greatest proportion** of the active principle of Belladonna, and is the most reliable Plaster

PROF. R. OGDEN DOREMUS, M. D., LL.D."

NEW YORK, June 7th, 1878.

Messrs. SEABURY & JOHNSON.

GENTLEMEN:—Samples of the Belladonna Plaster manufactured by your firm, and by Dr. Grosvenor's, were purchased by me of a well-known drug house, and comparative tests made of the same for the purpose of determining the relative amount of Extract of Belladonna in each. The tests used were applied to an equal quantity of each plaster, and under similar conditions. I find that the largest amount of the solid Extract of Belladonna is contained in your preparation, **which result was corroborated by repeated trials.**

Respectfully yours,

HUSBAND'S CALCINED MAGNESIA!

MEDAL AWARDED AT WORLDS FAIR, NEW YORK, 1853.

FIRST PREMIUM SILVER MEDAL awarded by the Franklin Institute, Philadelphia; by the Mechanics' Association, Boston; by the American Institute, New York, and by the Maryland Institute. In the report of the Twentieth Exhibition of American Manufacturers, by the Franklin Institute Pa., it is stated that

HUSBAND'S MAGNESIA

Is "Believed to be the best in the United States."

Its superior qualities consist in its being entirely deprived of carbonic acid; in its freedom from unpleasant taste, smell or other disagreeable property, and without roughness or grittiness to the touch or palate. One teaspoonful of it is equal in strength to three or four teaspoonfuls of the common Calcined Magnesia—thus combining smallness of dose with the most agreeable form in which Magnesia can be administered.

ISINGLASS ADHESIVE PLASTER.

This PLASTER has been found to be admirably adapted to Strapping after Surgical operations, and as a dressing to either incised or lacerated wounds. It is clean, of easy application, adheres firmly WITHOUT PRODUCING INFLAMMATION, and being semi-transparent, allows of an examination of the parts without their having to be disturbed by its removal, until, in many instances, the cure is affected. This plaster is not affected by age, and will bear exposure to any climate.  For sale by Druggists, and by

TWENTY-FIFTH YEAR.

THE DRUGGISTS CIRCULAR

AND

CHEMICAL GAZETTE.

This widely-known and popular publication is issued monthly from 36 BEEKMAN ST. NEW YORK, at the low price per annum (including postage) of one dollar and sixty cents.

To keep abreast of the times, every Druggist should subscribe for at least *one* good Pharmaceutical Periodical: if he cannot, for want of time, regularly read it, he will nevertheless find it valuable for reference in time of need.

The DRUGGISTS CIRCULAR is, we believe, the paper that will meet the requirements of the case. It contains the cream of Foreign and American Pharmaceutical literature, including the whole sphere of Laboratory and Counter Pharmacy; in it all new medicines, so soon as known, are fully noticed, their ascertained properties described, and their pharmaceutical management, therapeutical uses, doses, modes of administration, and physiological effects carefully reported.

One of the most useful features of the DRUGGISTS CIRCULAR is the familiar discussion in each number, under "NOTES AND QUERIES," of some of the many practical difficulties which beset both the Physician and the Apothecary in their professional dealings with patients and daily routine of business; under this head also much will be found relating to incompatibles in prescriptions, and the best forms for the preparation and administration of puzzling combinations, such as physicians are daily prescribing.

THE DRUGGISTS CIRCULAR contains a Monthly Review of the Drug Market, and a COMPLETE PRICE-CURRENT, embracing nearly every medicinal article of a well-stocked drug store, with prices each month carefully corrected by one whose opportunity and pursuits fully fit him for the undertaking. It gives always as fair and rational an idea of market values as it is possible in any list of prices to attain.

It will not be out of place here to add to the foregoing statements a few of the many letters daily reaching us from subscribers, which testify to the satisfactory character of the publication:

"Though long out of the drug trade, I read the CIRCULAR with as much pleasure as a new-paper, and look for it at the beginning of each month with as much interest."

Dr. J. W. C. O'NEAL, Gettysburg, Pa.

"Every number of the CIRCULAR is well worth the entire price of subscription."

CHAS. H. A. STAFFORD, Middleburg, Vermont.

"We might say that we are pleased and instructed by the monthly visits of the DRUGGISTS CIRCULAR, and consider it the best medical journal we take."

A. M. HERRING, British Columbia.

"I have been a constant subscriber to the CIRCULAR for twelve years, and each year marks a visible improvement in all its departments. It is certainly a Godsend to any young druggist, and to us older ones it seems each month like meeting an old friend. Go on in the good work."

N. I. FORD, Oneonta, N. Y.

"The CIRCULAR is indispensable with us, and well worth several times the subscription to any Druggist for the valuable formulas which it contains."

J. A. JACKSON, Gardiner, Me.

"I have found the DRUGGISTS CIRCULAR a great source of help to me, and hope the Numbers of 1881 will be as satisfactory as the past year."

G. A. LAMMON, Woodbury, Conn.

"The DRUGGISTS CIRCULAR is, in my estimation, the best paper of the kind published, and I never want to be without it."

G. F. WAGNER, Jr., Rock Island, Ill.

"I can't get along without my DRUGGISTS CIRCULAR. If I had to give up one or the other, I would give up the U. S. Dispensary before I would the CIRCULAR."

EDWARD C. JACKSON, Norfolk, Va.

"You may rely on my taking the CIRCULAR next year, and I hope to get another subscriber. I think the paper well worth double the money. I have taken it three years and can highly recommend it to English chemists."

J. W. ADAMS, Salford, England.

"My name has been on your books for the past nine years, and the 96 Nos. of the first eight years, which I have bound in four volumes, I consider the most valuable part of my permanent business and professional library."

A. T. WILLIAMS, New Hamburg, N. Y.

"I have got so now that I can't get along very well without the DRUGGISTS CIRCULAR. I find a lot of good information that I benefit by. I am having a lot bound for future reference."

C. H. KIRKWOOD, Ishpeming, Mich.

"We fully appreciate your efforts to furnish the Druggists with some reliable journal for their special use. We hardly think that we could do without it. Every number is full of practical thoughts, practical formulas, scientific essays, etc."

LYON & COMPANY, Spring Valley, O.

"I have saved several times the cost the last year, and do not intend to do without the CIRCULAR as long as I continue in the drug business."

L. H. CLAPP, Lebanon, Va.

COLLEGE OF PHARMACY

OF THE
CITY OF NEW YORK.

FIFTY-SECOND ANNUAL SESSION, 1881-'82.

The Lectures in this College will commence September 23, 1881, and continue until March 4th, 1882. The Lectures on Botany and Materia Medica will be illustrated by living plants, diagrams and models, while the drugs themselves will be shown as they are found in ordinary course of business, and their medical action explained. The Lectures on Chemistry, will give the student a thorough insight into this important department, and will be finely illustrated with practical experiments designed to impress upon the mind the facts which are conveyed in the Lectures. The important branch of Toxicology, will receive special attention. The Lectures on Pharmacy will be practical, and all important processes will be fully detailed, explained and illustrated. The selection of drugs and their proper manipulation to produce the remedies ordered by the U. S. Pharmacopœia and other recognized standard works will be dwelt upon, and the application of Analysis to Pharmaceutical Chemicals will be shown. The various manipulations of Pharmacy, as well of the store as of the Laboratory, will be explained, and a large number of preparations will be made, in order to familiarize the students with their manufacture.

The present session will continue the plan of dividing the classes into a Junior and Senior class who received instruction on a graded basis, and at separate hours. The Junior class will attend on Tuesday and Thursday evenings and Saturday afternoons; and the Senior class on Monday, Wednesday and Friday evenings.

The building recently purchased for the College has been remodeled and adapted specially for the comfort and convenience of the College and its classes, and has been newly fitted with apparatus, models, specimens and aids to the lectures.

Pill Tiles,	Porcelain Funnels.

In addition to the above, we have in stock nearly every article usually kept in a first-class Druggists' Glassware Establishment.

LETTERED PRESCRIPTION VIALS.

In this department of our manufacture we excel, as by our process the lettering is brought out clear, bold and distinct.

DRUGGISTS' OUTFITS AND SUPPLIES.

In this department we have an extensive assortment of goods, to which we particularly call the attention of those who contemplate commencing business, or who wish to replenish stock, consisting in part of

*TINCTURES AND SALT MOUTHS,
RICHLY CUT SHOW BOTTLES,
PAINTED AND DECORATED JARS,
PLAIN AND FLUTED URNS,*

*FRENCH COUNTER JARS,
CUT SPONGE JARS,
COUNTER BALANCES,
PRESCRIPTION SCALES.*

In a great variety of designs, shapes, patterns, and prices.

HAGERTY'S PATENT DRAWER PULLS,

Nos. 10, 12 and 16.

These Pulls are neat, chaste and desirable, and decidedly superior to any other ever manufactured. They are made in Italian (a dark) or French (a light) Bronze, Nickel and Verdi, and Nickel Plated.

GLASS LABELING.

In reference to the above we say that for beauty of design, brilliancy of color, and artistic finish of label, in connection with rapidity of execution of orders in this branch of our manufactures, we defy competition.

PRIVATE MOULDS MADE TO ORDER AND PARTICULARLY ATTENDED TO.

Our superior facilities for obtaining a supply of goods from the best sources and on the most advantageous terms, being Manufacturers and Importers, are such as to enable us to offer great inducements to purchasers. We therefore solicit a call and examination of our extensive and well selected stock, feeling confident of being able to give entire satisfaction.

We have the sole New York Agency for the Celebrated Enterprise Drug Mills—Mills which are superior to all others manufactured.

Atwood's Pure Alcohol.

AN ABSOLUTELY PURE SPIRIT.

NOTHING MANUFACTURED EXCELS IT FOR THE PREPARATION OF FINE PERFUMES

Orders by the barrel or smaller quantities executed by LAZELL, MARSH & GARDINER,

"ATWOOD'S ALCOHOL has for many years enjoyed an enviable reputation throughout the whole country, for purity and strength. A large majority of the most successful American Perfumers, whose products are rapidly driving out all foreign brands, attribute much of their success to the great purity of the ATWOOD'S ALCOHOL, with which their most delicate odors are combined and diluted. This Alcohol is made only by Messrs. C. H. GRAVES & SONS, 35 Hawkins Street, Boston, Mass., and is sold by all dealers from Maine to California. The present system of gauging alcohol, etc., is not always accurate, as has been often shown, and Messrs. GRAVES have adopted the plan of measuring all goods sent out, and guaranteeing full quantity, as well as quality and purity.

Messrs. C. H. GRAVES & SONS also import all the leading Wines and Liquors direct from first hands, and offer to the trade for Medical Uses the Best Brands of pure old Whiskeys and American Liquors. No house in the country is better known, and those in want of pure standard goods will do well to examine quality and prices before purchasing elsewhere. Circulars, prices, etc., will be mailed free to all on application.

THE HUB PUNCH.

(Trade Mark Registered.)

One of the most palatable of the standard compounds of liquors now bottled by wholesale dealers is the "Hub Punch," prepared by the well known Boston house of C. H. Graves & Sons. It is made of the best liquors, in large quantities, and its flavor is far superior to any punch that can be produced by ordinary methods of mixing. There is a rapidly increasing demand for it for hotel, club and family use. It can be kept for any length of time, and perceptibly improves with age.—From the Boston Advertiser, Jan. 15, 1880.

Sold by Licensed Wine Merchants, Grocers and Druggists everywhere.

IMPORTERS.

Specialty: VIOLIN STRINGS.

Leipsic, Saxony & 55 Maiden Lane, N. Y.

THE GENUINE RUSSIAN GUT VIOLIN STRINGS.—These goods are extensively advertised, and are well known not only to musicians, but to the small country dealers all over the United States.

We have this season adopted a new mode of packing, viz: each string is put in a separate wrapper bearing our Trade Mark, as follows:

Our reasons for the change, are:

1st.—By attaching our trade mark to each string, instead of, as heretofore, only to the box containing them we prevent unprincipled persons from offering as our GENUINE RUSSIAN GUT STRINGS, an inferior article which can only damage the reputation of these goods.

2nd.—Each string is better protected by its separate wrapper, so that it reaches the hands of the Violinist without having been previously injured by handling and exposure.

3rd.—The merchant is himself better protected against loss from damage to the goods while in his store as each string is more carefully kept from the air. Every retail dealer will at once recognize this material advantage.

4th.—It is more convenient for jobbers, who, in supplying the small trader, desire to break bundles.

5th.—It enables us to stamp on each wrapper and on the mind of each purchaser that every one of these strings is thoroughly warranted.

Angostura Bitters.

"The Aromatic Bitters of Messrs. Dr. Siegert & Sons of Angostura, are doubtless one of the most beneficial discoveries of the present time."

Dr. JOHANNES MÜLLER,
Medical Council, Berlin.

These Bitters are justly celebrated for their exquisite flavor and great medicinal virtues.

Used as an Aromatic Mixture with Wine and Spirits, an invaluable Tonic, and an efficient Preventive of Diarrhea, Cholera, etc.

Copies of Certificates of some of the most eminent physicians and chemists of the world regarding its wholesomeness and purity, are packed in each box.

CAUTION—The public are warned not only against the many false ANGSTURTA BITTERS offered for sale, bearing imitated labels and signatures of Dr. J. G. B. Siegert & Sons, but also against any Angostura Bitters manufactured under the name of other makers, and which being but recently introduced, are merely imitations of the only genuine ANGSTURTA BITTERS, of Dr. J. G. B. SIEGERT & SONS, which, during the last forty (40) years have enjoyed an unrivalled reputation for efficacy and superiority.

Price, \$16.00 per case of 24½ Bottles, duty paid and stamped.

POWDERED MEDICINAL EXTRACTS

The attention of pharmacists is respectfully called to the following in relation to an improvement in preparing medicinal extracts, so that they may be readily dispensed without loss, change or inconvenience. This is readily accomplished in the *Powdered Medicinal Extracts* which are of the same medicinal strength as the solid extracts prepared in our own Laboratory, and both of these varieties are superior to similar preparations usually offered for sale.

For convenience, these Powdered Extracts meet the wants of the dispensing pharmacist, and for their reliability and medicinal action they have received the unqualified approval of those physicians who have employed them.

Our powdered extracts may in all cases be substituted in equal weight for the *Solid Medicinal Extracts*.

Put up in one ounce bottles bearing labels like the following:

POWD. EXT. HYOSCYAMUS.

One grain of the powdered extract represents three and three-fourths grains of powdered Henbane Leaf.

This is prepared from the official Alcoholic Extract of Henbane, and has the same medicinal strength.

LAZELL, MARSH & GARDINER,
NEW YORK.

POWD. EXT. NUX VOMICA.

One grain of the powdered extract represents eight grains of powdered Nux Vomica.

This is prepared from the official Alcoholic Extract of Nux Vomica, and has the same medicinal strength.

TRUE

Persian Insect Powder

FOR THE

DESTRUCTION OF BED-BUGS, ROACHES, ANTS, FLEAS,
WATER-BUGS AND OTHER VERMIN.

LAZELL, MARSH & GARDINER,

Wholesale Druggists,

NO. 10 GOLD STREET, N. Y.

The popular notion that this substance is a combination of ingredients, is an error.

GENUINE PERSIAN INSECT POWDER is the flowers (ground) of the *Pyrethrum Carneum* or *Pyrethrum Roseum* a plant growing at a high elevation upon the Caucasian Mountains, and possessing in a singular degree, the quality of first stupefying and then killing insects and vermin of every kind, while at the same time it is harmless to man and animals.

PERSIAN INSECT POWDER has long been in extensive use in Asia and Eastern Europe, but only within a comparatively recent period has it been known in Western Europe or in this country.

Our House was one of the first (if not the first) to introduce it in the United States. As its qualities became known, a large demand quickly sprang up, stimulated by parties who adopted the article, putting it up, however under other names, such as "Magnetic Powder," "Electric Powder," &c.

The demand for the powder in Western Europe and this country has increased so much of late, that adulterations with the leaves and stems of the plant, as well as with other substances, have become common, and vast quantities of this trash are thrown upon the market.

Indisputably many persons on this account have been disappointed in the results they expected.

We have, since its first introduction in this country, been largely engaged in importing the Persian Insect Powder, and our long experience has given us unsurpassed facilities for commanding the best Powder obtainable, viz:—that ground from the flowers alone. Our instructions to our agents are imperative on this point: and that they have been faithfully followed, is evidenced by the favor with which PERSIAN INSECT POWDER, bearing our label has always been received.

For Terms, see below.

LAZELL, MARSH & GARDINER.

The most satisfactory results in the use of the Persian Insect Powder, are secured by the use of a Bellows, made for the purpose. The Bellows, filling the air with the powder, compels the inhalation of the fine particles by the insect or vermin, and it is this inhalation, rather than mere contact, that kills them. By it, the Powder can be blown into crevices and recesses, searching out such vermin as would be comparatively secure from a simple strewing by hand. Moreover, the use of the Bellows economises the Powder, making every particle tell.

Price of Bellows (Retail, \$1 00) - - - - - \$7 00 per doz.

HÆMAGLOBIN;

OR EXSICCATED BULLOCK'S BLOOD.

We prepare this remedial from healthy BULLOCK'S BLOOD, direct from the abbatoirs.

This preparation is freed from fibrin and all extraneous matters, evaporated with care at a moderate temperature, and represents nearly pure Hæmoglobin.

Bullock's blood has been used recently with very gratifying results. In presenting it in this form, by which it may be preserved almost indefinitely and without any loss of its soluble principles or remedial properties, the pharmacist or patient can readily reproduce Bullock's Blood as efficient as from the animal itself.

THE NEW YORK
COAL TAR CHEMICAL CO.

(FORMERLY PAGE, KIDDER & FLETCHER,)

No. 10 Warren Street, N. Y.

*Manufacturers of Benzole, Naphtha, Naphthaline, Nitro-Benzole, Oil Myrbane,
Carbolic Acid, Cresylic Acid, Paraffine Varnish.*

We have largely increased our facilities for the manufacture of all qualities of CARBOLIC ACID Crystals, Liquid and Crude.

Being COAL TAR DISTILLERS on a large scale, we will compete with the best German and English makers, and offer our goods at the **LOWEST MARKET PRICES.**

We recommend the following standard varieties as being the most useful for medicinal and disinfecting purposes:

No. 1 Medicinal, Cryst. at 42° c. in 1 lb. bottles.
" 2 " " 35° c. " "
" 2 " " 35° c. in 50 lb. tins.
" 4 Liquid in lb. bottles.
" 5 " 95 per cent. Tar Acids in bbls, per gall.
" 6 " 80 " " " " "

CRUDE ACIDS.

We are prepared to supply any grade of *Crude Acid*, but cannot advise its use for general disinfecting purposes.

**LAZELL, MARSH & CARDINER'S
LABORATORY PRODUCTS.**

We note, with pleasure, the increased demand for the products of our Laboratory, and call attention to the fact that we now produce all new articles, both Chemical and Pharmaceutical, that are in demand

SOLUTION DIALYSED IRON,

A pure neutral solution of Ferric Oxychloride ($\text{Fe}_2\text{Cl}_3 \cdot 23 \text{Fe}_2\text{O}_3$), which will keep without change.
