NEW YORK, MARCH 15TH, 1876.

DEAR SIR,

We have the pleasure to hand you herewith our Drug List, with prices corrected to date. Our friends will please remember that these quotations refer to moderate quantities; for large quantities, and especially for full packages, more favorable prices may generally be expected.

Our terms are Cash, in 30 days. Bills not paid at maturity will be subject to draft.

Parties ordering for the first time, will see the necessity of GIVING REFERENCES; OR, OF ENCLOSING DRAFT TO COVER.

Pledging our best endeavors in behalf of our friends, and soliciting the commands of those in the trade with whom we have not hitherto had the pleasure of any correspondence,

We remain, faithfully yours,

LAZELL, MARSH & GARDINER.

## FLUID EXTRACTS.

MADE BY

### LAZELL, MARSH & GARDINER.

These Extracts are carefully prepared from select materials, and are made wholly by cold reprecipitations. Their strength (with a single exception) is uniformly one troy ounce of crude material to one ounce of fluid extract, which, of course, gives one grain to each minim—the dose can therefore be calculated with certainty. The exception is Opium, which is identical with the *Tinctura Opii Deodorata* of the U. S. P., containing 37½ grains of powdered Opium in each fluid ounce. We invite the attention of Pharmacists to these extracts, confident that they will be found equal to the products of any other makers.

# SUGAR-COATED PILLS & GRANULES,

MANUFACTURED BY

BULLOCK & CRENSHAW, Philadelphia.

These Pills have now been before the profession for more than thirteen years. From the first, conscientious care has been observed with regard to the quality of the medicines entering into them, and to the accuracy and completeness with which they have been combined and divided. Experience and skill have been eagerly availed of to bring them, day by day, a step nearer perfection, and it is believed that the Pills of this house are equalled by no other products of the same kind, and that they excel all others in their ready solubility; any one who will cut open one of their Quinine Pills will need no further proof that perfection has been attained in this all important point.

We have been induced to urge the sale of these Pills by the feeling of satisfaction resulting from the accuracy, care, reliability and skill of the manufacturers.

## SACCHARATED PEPSIN.

The increased demand for a reliable article of Pepsin has induced us to add it to the list of pharmaceutical products emanating from our laboratory, and we confidently believe it will be found uniform in strength and efficacious, wherever the symptoms of the patient indicate the use of Pepsin.

Each parcel of Saccharated Pepsin is tested when manufactured, and will be found to answer the usual tests of efficiency.

This article of Pepsin is perfectly soluble, and can be employed either in the form of Powder, in doses of from one to five grains, or dissolved in water, to which Glycerine, Syrups, or a flavoring Aromatic may be added, AVOIDING, HOWEVER, the use of alcohol, or metallic Salts, in the combination.

TRUE

# Persian Insect Powder.

FOR THE

DESTRUCTION OF BED-BUGS, ROACHES, ANTS, FLEAS,  
WATER-BUGS AND OTHER VERMIN.

LAZELL, MARSH & GARDINER,

*Wholesale Druggists,*

No. 10 GOLD STREET, N.Y.

The popular notion that this substance is a combination of ingredients, is an error.

GENUINE PERSIAN INSECT POWDER is the flowers (ground) of the *Pyrethrum Carneum* or *Pyrethrum Roseum*, a plant growing at a high elevation upon the Caucasian Mountains, and possessing in a singular degree, the quality of first stupefying and then killing insects and vermin of every kind, while at the same time it is harmless to man and animals.

PERSIAN INSECT POWDER has long been in extensive use in Asia and Eastern Europe, but only within a comparatively recent period has it been known in Western Europe or in this country.

Our House was one of the first (if not the *the* first) to introduce it in the United States. As its qualities became known, a large demand quickly sprang up, stimulated by parties who adopted the article, putting it up, however under other names, such as "Magnetic Powder," "Electric Powder," &c.

The demand for the powder in Western Europe and this country has increased so much of late, that adulterations with the leaves and stems of the plant, as well as with other substances, have become common, and vast quantities of this trash are thrown upon the market.

Indisputably many persons on this account have been disappointed in the results they expected.

We have, since its first introduction in this country, been largely engaged in importing the Persian Insect Powder, and our long experience has given us unsurpassed facilities for commanding the best Powder obtainable, viz:—*that ground from the flowers alone*. Our instructions to our agents are imperative on this point; and that they have been faithfully followed, is evidenced by the favor with which PERSIAN INSECT POWDER, bearing our label has always been received.

For Terms, see below.

**LAZELL, MARSH & GARDINER.**

24 ounce Bottles (Hotel size), per dozen.....			15 00

The most satisfactory results in the use of the Persian Insect Powder, are secured by the use of a Bellows, made for the purpose. The Bellows, filling the air with the powder, compels the inhalation of the fine particles by the insect or vermin, and it is this inhalation, rather than mere contact, that kills them. By it, the Powder can be blown into crevices and recesses, searching out such vermin as would be comparatively secure from a simple strewing by hand. Moreover, the use of the Bellows economises the Powder, making every particle tell.

Price of Bellows (Retail, \$1 00).....\$7 50 per doz.

## French Fruit Juices, for Soda Syrups,

PREPARED BY

LEXCELLENT & CHEVASSU, Paris France.

PINE APPLE, QUINCE, STRAWBERRY, RASPBERRY, CHERRY,  
BLACKBERRY, CURRANT, (Framboise), WILD CHERRY,  
SYRUP RED ORANGE, (l'Orange Rouge de Malte.)

We recommend to the favorable consideration of the Trade the productions of this celebrated House, which have met with an unprecedented sale and are everywhere recognized as the standard of excellence.

The juices are prepared directly from the fruit, possessing the *true* flavor of the fruits from which they are made. They are unequalled by any other juices or syrups on the market.

The ORANGE SYRUP is prepared entirely from the Red Oranges of Malta, of which the exquisite taste and perfume are so favorably known. It is a delicious Syrup for Soda Water or for preparing a refreshing and healthful beverage.

These juices were imported, and introduced by Messrs. Sargent, Studley & Co. some three years since. Having retired from business, they have assigned the agency for them to us.

## PURE COD LIVER OIL.

MANUFACTURED ON THE SEA-SHORE BY HAZARD & CASWELL, FROM FRESH AND SELECTED LIVERS

This Oil is made from fresh selected livers on the sea-coast, and from the great care and skill attending its manufacture, is perfectly pure and sweet, and can be retained by the stomach when all other kinds have failed.

It is confidently recommended to the medical profession as the sweetest and purest in market.

Prof. Parker, of New York, says; "I have tried almost every other manufacturer's Oil, and give yours the decided preference."

Prof. Hayes, State Assayer of Massachusetts, after a full analysis of it, says: "It is the best for foreign or domestic use."

It is made with GREATER CARE, is sweeter, and has less of the RANCID, unpleasant fish taste and odor than any other made—foreign or domestic.

### THE IMPROVED CLINICAL OR FEVER THERMOMETER.

The improvement of the manufacture of this Thermometer consists in the contraction of the bore at "A." This is produced by a new and very difficult operation. The bore already wonderfully small, by this process is rendered extremely minute. It permits the free passage of the main portion from the bulb by expansion, but is entirely too small to admit the disjointed or registering portion, "B," from entering, and thus prevents the possibility of joining. We are aware that large numbers of thermometers have been sold claiming this peculiarity, but little or absolutely no reliance can be placed in them, as many of the faculty can testify.

Every Thermometer offered by us as possessing this merit is *absolutely incapable of being deprived of this property, unless by actual design.*

# INDEXICAL SOAP COMPANY, MANUFACTURERS OF SILVER, PUMICE, SHAVING, DENTAL, AND FINE TOILET SOAPS.

**Indexical Silver Soap.**—For cleaning and polishing Silver, Silver-Plated, Britannia and Tin Ware, Window Glass, Mirrors, Marble, Paint, &c.

This is the most convenient and effective preparation for these purposes ever offered to the public.

It may be used even by inexperienced help with entire safety, as it contains nothing that can possibly injure the finest plate or jewelry.

Many of our largest Manufacturers and Importers of Silver and Plated Ware, have used this Soap, and have given it their unqualified approval.

"We have made careful trial of your SILVER SOAP, and find it admirably adapted to the cleaning of Silver and Plated Ware, particularly the chased and frosted work; and we take pleasure in recommending it to the public as a safe and effective agent for removing tarnish and restoring the color with a very small amount of labor. We have never seen a better article for the above purpose."

"We have given your SILVER SOAP a thorough trial, and find there is nothing to equal it, as it cleans Silver quicker, better and with less trouble than anything we have been able to find."

"After repeated trials of your SILVER SOAP, we can recommend it as the best article we have ever seen for cleaning plated and Silver ware. It must soon be used by every family."

**INDEXICAL PUMICE-STONE SOAP.**—Removes stains of all kinds from the hands leaving them soft and white.

**INDEXICAL CROWN SHAVING SOAP.**—Surpasses all shaving compounds in richness and durability of its lather; working equally well in cold or warm water. It permeates the beard, rendering it soft and easy to cut, and leaves the face fresh, fair and smooth.

**INDEXICAL DENTAL SOAP.**—Without color, and containing no powders or acids. It imparts to the teeth a pearly whiteness, sweetens the breath and strengthens the gums. Recommended by dentists.

The best value in TOILET SOAPS is found in  
**Robinson's Indexical Large Oval Tablets.**

Honey, Glycerine, White Glycerine, Brown Windsor, Turtle Oil, Oatmeal Glycerine, Palm Oil, White Windsor, Alpine, Sunflower, Poncine, Bay Leaf, Almond Meal, Rice Flower, Tar, Sand, Pumice, &c.

"I use your SILVER SOAP daily in my business, for cleaning Silver and Plated Ware and Jewelry; it is the best thing for the purpose I have ever used, and I sell it nearly every day, and every customer likes it and recommends it."

"For cleaning and polishing Silver, Silver-Plated, and Tin-Ware, Mirrors, Window Glass, Paint, Marble, &c., we are now selling, and for many years have sold, more of ROBINSON'S INDEXICAL SILVER SOAP, than all other preparations combined. We recommend it as safe, effective, convenient and economical."

"We have sold during the last seven years many thousand boxes of your INDEXICAL SILVER SOAP, and it has given universal satisfaction, being superior in my estimation, to any preparation of its kind. We expect to greatly increase the already large demand."

Marion Harland, in "Common Sense in the Household," page 529, says: "For cleaning silver I have for years used the INDEXICAL SILVER SOAP. Besides being clean and easy of application, it will not wear away the metal, as will whiting, or chalk, or plate powder, however finely pulverized."

**CAUTION.**—The original and only genuine Silver Soap is known world-wide, as the INDEXICAL SILVER SOAP, and is the only proper thing to use for cleaning silver, Electro-Plated Goods, Marble, Artificial Teeth Plate, Jewelry, Statuary, fine House Paint, etc. Beware of imitations.

**ALMOND MEAL SOAP.**—Registered July 27, 1875. Rich in Sweet Almond Meal, Albumen, Glycerine, Balsams and Otos. Its fine emollient properties are unexcelled by any Toilet Soap in use.

**RICE FLOUR SOAP.**—Registered July 13, 1875. An extra fine white Toilet Soap, with abundant, agreeable, and lasting perfume.

**OATMEAL GLYCERINE SOAP.**—Registered June 8, 1875. Recommended for use in all extremes of weather. It is especially adapted to the tender skins of young children. Made exceedingly mild, it is far preferable to the best Castile.

**CAUTION.**

The only genuine Oatmeal Soap is ROBINSON'S OATMEAL GLYCERINE. It is the cheapest fine Toilet Soap in the world, and a perfect winter soap. Ask for ROBINSON'S OATMEAL SOAP.

# HORSFORD'S ACID PHOSPHATE.

(MEDICINAL)

THIS preparation, since its introduction, has been generally recognized by the medical profession as  
one of the best specifics for

DYSPEPSIA, URINARY DIFFICULTIES, CEREBRAL & SPINAL PARALYSIS,  
MENTAL EXHAUSTION, WAKEFULNESS, HYSTERIA, AND  
NERVOUS DISORDERS IN GENERAL.

Most excellent results have followed its administration for the prostration and nervous symptoms  
following SUNSTROKE.

## SEA SICKNESS.

It has recently been discovered by an eminent Physician, while crossing the Atlantic, that

### HORSFORD'S ACID PHOSPHATE

is a preventive and cure for SEA SICKNESS.

Its use does not interfere with either habits or diet, and no danger need be apprehended from excessive doses, for it is the same Acid as is found in Wheat and other cereals, and if we take into the system more than is needed it is expelled with the secretions of the body.

Professional men, especially those undergoing severe mental labor, will find this article, from its stimulant effect, to relieve fatigue and invigorate the mental powers, while its use before retiring produces relaxation and sleep.

The following unsolicited communication from that distinguished gentleman, Dr. WINSLOW LEWIS, simply confirms what is already known to most of the medical fraternity:

H. M. ANTHONY, Esq., New York.

BOSTON MASSACHUSETTS, *November, 11, 1873.*

*Dear Sir:* Having in my own person experienced those ills for which the Acid Phosphate is prescribed, and having found great relief and alleviation by its use, I most cheerfully attest my appreciation of its excellence.

Yours very truly,

WINSLOW LEWIS, M. D.

Physicians wishing to examine and test this remedy, are requested to apply by letter or otherwise to the undersigned.

A pamphlet more thoroughly descriptive, and containing testimonials, will be sent free by mail on application.

PLAISTED'S

PATENT

SUPPOSITORY  
MOULDS.

[Patented Jan. 20, 1874.]

THE above cut represents one of PLAISTED'S PATENT SUPPOSITORY MOULDS, closed and ready to fill, and one from which the Suppositories have been removed by sliding the moulds apart.

These moulds are offered to the Pharmacists of the country, with the assurance that they are the best moulds in the market, and that suppositories may be removed from the moulds in from three to five minutes after filling without danger of breaking.

The moulds are made of brass, nickel-plated, and each will make six suppositories of thirty grains U. S. P. They are constructed in two parts that they may be separated by a sliding motion in the direction of the axis of the suppository, while a lateral motion or a direct separation is prevented. The object is to facilitate the removal of the suppository from the moulds, and to diminish the danger of breaking it.

 —♦—

The Lectures in this College will commence September 25th, 1876, and continue on Monday, Wednesday and Friday Evenings, until March 9th 1877. The Lectures on Botany and Materia Medica will occupy the hour from 7 to 8 o'clock on Monday and Friday Evenings, and will be illustrated by living plants, diagrams and models, while the drugs themselves will be shown as they are found in ordinary course of business, and their medical action explained. The Lectures on Chemistry, on Wednesday Evening from 7 to 9 o'clock, will give the student a thorough insight into this important department, and will be finely illustrated with practical experiments designed to impress upon the mind the facts which are conveyed in the Lectures. The important branch of Toxicology, will receive special attention. The Lectures on Pharmacy will be practical, and all important processes will be fully detailed, explained and illustrated. The selection of drugs and their proper manipulation to produce the remedies ordered by the U. S. Pharmacopœia and other recognized standard works will be dwelt upon, and the application of Analysis to Pharmaceutical Chemicals will be shown. The various manipulations of Pharmacy, as well of the store as of the Laboratory, will be explained, and a large number of preparations will be made, in order to familiarize the students with their manufacture. The Lectures on Pharmacy will be given on Monday and Friday Evenings, occupying an hour and a quarter each evening.

## Laboratory Products.

---

The attention of Pharmacists is called to the following important PHARMACEUTICAL PRODUCTS, which are but a few of the many articles made in our laboratory, all of which are of unexceptionable quality.

### Medicinal Fluid Extracts

of which our list embraces about one hundred and fifty kinds.

These are all made by COLD PERCOLATION, and, UNLIKE many of the kinds offered for sale, are RELIABLE and of full standard strength. With one exception, each fluid ounce contains all the medicinal virtues of one troy ounce of the drug from which it is made,

### Citrate of Iron and Quinia

containing over Ten per cent. of the Alkaloid Quinia AND PERFECTLY SOLUBLE in cold water. Much of this preparation offered for sale is deficient in Quinia strength.

### Saccharated Pepsin.

We have for the past three years been manufacturers of this article, and it has always been known favorably as being entirely soluble, of full strength and acceptable quality.

A full special list of all our Pharmaceutical and Chemical products will be furnished on application.
