The Committee have to state, that,

The dates inserted in the following List from April 1801 to December 1804 are doubtful, as no minutes of examination were made, or, if made, not preserved.

The examination books for the years 1813 to 1819 are mislaid.

Where the date is doubtful, the same has been marked with a note of interrogation.

It is, however, believed that there are very few, *if any*, omissions of Members of the London College.

The entries from the Edinburgh College are not perfect for the years 1841 to 1844, the returns for that period not having been placed at the disposal of the Committee.

Any error or omission that may still exist, will, on its being made known to the Registrar, receive every attention.

London, January 1852.
