MEMBERS

OF THE

NEW YORK COUNTY MEDICAL SOCIETY,

FROM ITS

ORGANIZATION IN 1806.

PREPARED UNDER A REPORT OF A COMMITTEE, AND PRESENTED TO THE
MEDICAL SOCIETY OF THE STATE OF NEW YORK,

FEBRUARY, 1861.

ALBANY:
C. VAN BENTHUYSEN, PRINTER.
1861.

REPORT

NEW YORK COUNTY MEDICAL SOCIETY

The Committee appointed by the New York County Medical Society to make a correct list of its members respectively gave out the following report. They have placed the names in alphabetical order. And under appropriate headings is placed such information as was thought of interest to the profession.

Since the organization of the Society in the year 1866 to the present time 1881 there have been admitted, according to the records of the Society 1523 members, whose names will be found in a list of whom are mentioned to be dead.

In relating to the causes of death it will be found that in 130 unexplained cases, one-fifth was caused by consumption, one-ninth by apoplexy, and one-fourth by softening of the brain. If these three causes are added together, it will be found they comprise a fraction more than one-half the entire number of deaths.

H. D. BOLLEBY, M. D., President.

THOMAS G. FERRIS, M. D., Secretary.

ALBERT F. GARDNER, M. D., Treasurer.

JOHN B. VAN KLEEK, M. D., Librarian.

JOHN W. WOODRUFF, M. D., Editor.

Committee.

REPORT.

The Committee appointed by the New York County Medical Society, to make a correct list of its members, respectfully present the following report. They have placed the names in alphabetical order. And under appropriate headings is placed such information as was thought of interest to the profession.

Since the organization of the Society, in the year 1806, to the present time, 1861, there have been admitted, according to the records of the Society, 826 members, whose names will be found below, 378 of whom are ascertained to be dead.

On referring to the causes of death it will be found that in 130 ascertained cases, one-fifth was caused by consumption, one-ninth by apoplexy, and one-fourteenth by softening of the brain. If these three causes are added together, it will be found they constitute a fraction more than one-half the entire number of deaths.

H. D. BULKLEY, M. D., *President.*

HENRY S. DOWNS, M. D., *Secretary.*

JOEL FOSTER, M. D.,

THOMAS C. FINNELL, M. D.,

ALFRED UNDERHILL, M. D.,

JOHN R. VAN KLEEK, M. D.,

JOSEPH W ~~W~~ I. D.,

Committee.
