Capt. Howgate has been sentenced to eight years imprisonment. The Thomas Iron company, of Philadelphia, have given notice of an advance in price of pig iron...

George W. Walker was shot and killed at Matthews hotel by J. W. and A. L. Thompson, of Groesbeck, Texas. Woman at the bottom of the difficulty. Judge Hazen, at Topeka, Kans., refused to grant the order asked for by E. H. Snaw, to restrain J. R. Hudson, assuming office and performing duties of state printer.

The United States circuit court at Cleveland, Ohio, has handed down a decision which may prove a knock-out blow to the American Fibre chamois company of New York. According to general report at Berlin, Prussia, Frederick Charles, of Prussia, who has been living in Italy, smallness of our annual death-rate, and the persistency of good health in individuals, old and young.

Having a due acquaintance with the climates and diseases of other states, and being resident twenty-two years in this dry southwest—including fifteen in New Mexico and ten in this town—I am fully satisfied that there can be few places in America, if any, that can match Las Vegas in possible and actual salubrity. The entire absence of marshes, or wet river bottoms, wholly precludes the existence of those disease germs, which we call malaria. No malarial fevers are ever seen in this town or vicinity.

With perfect drainage, with dry air nearly the whole of the year—fifty for the year, and only thirty, or even twenty, for weeks or months, together, in February, March and April—with moderate, or dry summer heat, and cool nights, the opportunity for seasonal diseases does not exist here. A Missouri doctor, visiting Las Vegas, hurried home, in response to a telegram from his partner, because a certain seasonal disease was developing beyond his power to meet the calls, alone. Such a summons could never be sent after a Las Vegas physician, and it is difficult to imagine such an abundance of medical practice here as to justify two physicians associating themselves in a business partnership.

Let me give a few illustrations of the health of our community. In other, lower and damper, states, sickness among children is reckoned one of the regular, unavoidable circumstances of domestic life. In our happy town, sickness among American children is rare, is unexpected, and is usually of a fatal character. To catch a more definite view of my own professional work in this line, in an average year of a well-established practice, chiefly domestic, I looked over my cash-book, for the twelve-month, to discover my earnings from the care of sick children. The interesting result was that but 5 1/2 per cent. of my income in that time resulted from attendance on children, under five years of age. Of the money so received, one-fifth came from the single case of a child brought in here, sick, from a neighboring commonwealth; while one-tenth of the whole accrued from vaccinations, and not one dollar represented a fatal case.

Las Vegas is far from being the paradise of doctors. Certainly, no town in New York or Ohio could offer such long periods, when the practice of all the resident physicians is so exceedingly light. Spells of weeks and months occur when one's practice hardly justifies his "plant" of office, books, instruments; the clinical thermometer, the hypodermic syringe, and the pocket case of instruments weigh down his garments, without the daily use that their constant carrying would suggest. The scanty prescription files at the drug stores, through these salubrious epochs, are corroborative of the lack of work of the medical fraternity. In these days of dearth, a visiting consumptive, an obstetric case, a stray gunshot wound, would be a ray of light, from heaven. During the two years now just past, the lightness of medical practice has been a common matter of comment in the profession; and there has been an entire absence of the contagious diseases, scarlet fever, diphtheria, measles, small-pox; or those that are rated infections, as croupous pneumonia and typhoid fever. The broncho-pneumonia has been very rare, and whenever present, it is remarkable as not being the scourge of childhood, as it is in the eastern towns, deaths rarely occurring from it, and the severest cases yielding easily to treatment. Of course, the contagious and infectious diseases get in, at times, but they are notoriously lighter than elsewhere, and, as epidemics, are more readily kept in check than in damper airs, apparently because of the repressing, deterrent effect of our dry, highly electrified atmosphere on the microscopic plant life, which is at the bottom of these human ailments. To recur to the absence of seasonal diseases, not only do we not have the malarial fevers in late summer and autumn, but we do not have the abdominal disorders in the few warm months. Diarrhoea and dysentery are extremely infrequent, whether in old or young, are never either endemic or epidemic, and the rare sporadic cases are always easily traceable to personal imprudence, and hence occur in spite of the favorable climatic influences. Nor are the pulmonary affections of marked frequency in the cooler months. Bronchitis occurs, as it will in any climate, but it is not very common, and never severe, and when it develops into broncho-pneumonia, the result is easy to control by

only means that occurred in my lodge, in the six years next before the taking of these figures were, one suicide, not in good standing, and hence not really entitled to receive funeral benefits, or even be accounted for by the lodge; one visiting consumptive, inadvertently let into the lodge, contrary to rules; and one old man, with heart disease, of long standing, who had sought better health in New Mexico, and at last, after years of renewed usefulness, succumbed to pneumonia. The figures for the Las Vegas lodge, as to time lost in disability, would appear much more to our advantage had I omitted one case, where sick benefits were long drawn by a brother, whose incapacity was dishonorably incurred, and he, therefore, not entitled to benefits.

For a number of years, I kept a careful record of every death occurring among the American race—that is, non-Spanish—population of Las Vegas, generally verifying the reported cause of death, in each instance. The first observation was that from 22 to 56 per cent. of our total number of deaths, annually, was from visiting invalids, the victims of advanced pulmonary consumption—cases too far gone to have ventured into this high altitude. Excluding these fatal cases among visitors, our resident American death rate was found to vary from 12 down to 6 per 1,000, per annum. In 1888, when we had an unusual number of deaths from chronic disorders in elderly persons, as cancer, heart disease, alcoholism, besides reported old age, the rate reached 10 per 1,000; in 1886, typhoid fever and other zymotics ran it up to 12; in 1887 and 1889, it was only 6 per 1,000. But in a certain series of years, 18 per cent. of all resident deaths were non-violent, as railroad accidents, suicides, accidental shooting, lightning, and mishaps with horses. No death was reported, in these cases, from Bright's disease, while but two deaths were reported from consumption, where the subject apparently developed the disease here, one being a visiting young woman, here with a consumptive relative, and herself already seriously invalided otherwise; the other being an old United States pensioner, sadly broken with poverty and excess in opium and alcohol. Cases of consumption actually developing here, either in Americans or among the Spanish people, are very rare.

In conclusion, I will state that there seems to be abundant reason for believing all conditions, in northern New Mexico, to be more favorable for the general promotion of health than in Colorado, as well as for the cure of suitable cases of visiting invalids, while the greater winter warmth of southern New Mexico puts it far ahead of Colorado, for the outdoor life of the more delicate cases, in the colder months. But for a fair, all-the-year-round climate, in which to keep health or to regain it, I know no town in the southwest that is equal to Las Vegas.

What Las Vegas Needs. That which Las Vegas needs at this time, not to speak disparagingly in the least of other laudable enterprises on foot and in a fair way to be consummated, is the discovery and development of inexhaustible coal supplies which are found on every side of us and undoubtedly exist in this immediate vicinity. To further encourage the work of prospecting, it would not be amiss for the Citizens' Club to offer a bonus of several hundred dollars to the person or company who shall find a vein of black diamond quality, or a coal bed, within a reasonable distance from the city. Once found, as it undoubtedly would be, it should under no circumstances be permitted to pass into the hands of the railroad company, who are usually the first and largest bidders on property of this kind. When coal is once discovered at our very doors, then it is that manufacturing interests will leap into prominence. Cheap fuel, an unoccupied field, and the usual side inducements, will then secure us all the manufacturing establishments that we want. Las Vegas worth found coal was made; Atchison followed suit with the same result, and so may Las Vegas.

Historic Kearney's Pass. Out from Las Vegas, in a southwesterly direction, is a romantic and historic spot called Kearney's Pass. It is distant not over three miles from the city, and is a natural gateway in the crestone hills where the Agus Sarcas finds its way out of the mountains onto the plains. There, in 1849, General Kearney, in attempting to invade Las Vegas from Santa Fe, was repulsed by Mexicans who had obstructed the gap at Agus Sarcas, with a great pile of detached rock, thus preventing the further advance of the federal troops. Kearney took in the situation at once and saw that he was caged and practically cut off from Las Vegas. Preparing a rude road up the steep side of the crestone hills, the gallant general ordered his men to pull their field pieces up to the summit of the range. After a great deal of tugging and pulling, for the ascent of the artillery had to be made by hand—a number of guns were mounted on the uppermost ridge and it did not require many rounds to put the enemy to flight; then the gap was cleared and the guns hauled down and passed through.

The time is close at hand when the country lying between Deming and the Mormon colonies in the republic of Mexico will be a series of prosperous settlements.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years, was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and, by constantly failing to cure with local treatment, pronounced it incurable. Solenne has proven catarrh to be a constitutional disease and, therefore, requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally, in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Round-trip tickets to the hot springs cañon, to-morrow, can be purchased for forty cents. The trains which leave at 8:30 and 11:30 will run up to the picnic grounds. There will be much to amuse the crowd; music, dancing and refreshments.

Carrie Lewis, Julia Pettigrew, Elsie Hopkins, Lottie Roberts and the Archibald little girl will take part, this evening, in the fair for La Salle institute. The Archibald girl is only three years old, and Elsie Hopkins, who sings, dances and plays the piano, is but five.

Vander & Vander and Long & Fort appeared before Judge Thos. Smith, this morning, on behalf of Dr. W. D. Gentry, and petitioned for a writ of mandamus against the New Mexico Board of Health. The writ was issued, on the return made on July 1st when the case will come up for final hearing. It will then be decided whether or not Dr. Gentry is to have a physician's certificate in this Territory.

FISHING IN MOUNTAIN STREAMS.

The exodus, as presented from principal points on the line of the Atchison railroad, for the hunting and fishing grounds of our native mountains and streams, has been, perhaps, unparalleled during former years. A visitor, just now, to the upper waters of the Pecos and vicinity, will find the neighborhood filled with lovers of the pictorial art, and the number of tents and other out-door habitations lining the banks of the streams, is suggestive of some gala day to the aboriginal inhabitants.

To anyone seeking healthful, pleasurable recreation, provided they are imbued with a love of the Waltonian sport, there certainly can be no more delightful and invigorating exercise; for however enervated the ordinary existence of the disciple may be, when he arrives on the foreign heath, he must determine to be up with the lark, for the most successful angler is the one who casts his fly before the sun makes its appearance, and to do this satisfactorily necessitates an early retirement. Aside from the pleasure of the rod and the chase, a lover of the grand and beautiful in nature can have his utmost longings gratified in this re-

HOT SPRINGS NOTES.

Wm. King, manager of the Mountain house, has been down town, to-day.

Judge Lafayette Emmet returned to town, this morning, from the watering place.

Judge and Mrs. Thos. Smith are stopping at the Montezuma, for a few days.

John G. Plank, Jr., son of the Montezuma manager, came down to the city, this afternoon.

Two cars of ice were shipped from the Agua Fria company's reservoir houses, this morning.

Chas. Heiseb, of the hot springs firm of Kaufmann & Heiseb, enjoyed city life for a while, to-day.

Chas. B. Gentry, of Chicago, who had been a guest of the Montezuma, left for home at noon.

M. E. Williams, foreman of bridges and buildings, for the Atchison, went out to the west at noon.

John Boeh, from Rowe, has charge of the hot springs section, as foreman, and his family are now domiciled at the great resort.

Ben Bruno, the hot springs heavyman returned to the city, this afternoon, from a run up to Watrous.

C. A. Rehrbacher and son-in-law came down from the resort, this morning, but soon returned again, having fallen in love with the beauties of the upper Gallinas.

The mail failed to get up to the springs last evening, being overlooked at the depot. This sending of the mail is a new thing, but the longer it continues, the less likely it is to be forgotten. It is a gratifying matter on the part of all concerned, the government bagging fire in the matter of establishing an office, because the people demand the retention of the old name, "Las Vegas Hot Springs." However, it will all work around right, in a few weeks.

The Las Vegas resort is situated in the Rocky mountains, at an elevation of 5,700 feet, in the midst of the most attractive scenery of this noted section. The climate is perfect, and especially beneficial to sufferers from pulmonary diseases, while the waters of the springs are a specific for innumerable disorders. Illustrated descriptive matter and any further information desired can be obtained, free of charge, on application to any representative of the Atchison route.

The magnificent Montezuma hotel, Las Vegas hot springs, six miles out of the city, connected by rail, five trains a day, was re-opened on June 20th, 1886. This modern mountain inn has been re-fitted throughout, and various improvements have been made in the grounds, the bath house, etc. The capacity of the main hotel will be supplemented by the Mountain house (closely adjacent) by comfortable rooms in the second story of the main house, and by attractive cottages, the arrangements being such that several hundred persons can be amply accommodated at the same time. The rates at the Montezuma are \$2 per day and upward, and \$17.50 per week and upward; at the Mountain house, and bath house and cottage annex, \$3 per day and upward, and \$17.50 per week and upward. Round-trip tickets to Las Vegas hot springs, at very low rates, are on sale from principal points.

Just the other day, representative H. B. Brown from all parts of the country met in Cincinnati, to attend the grand lodge of the Independent order of B'nai B'rith. A most interesting and profitable session of the proposition for the establishment of national Jewish hospitals for consumptives at Denver, Colo., and San Antonio, Texas. Neither place is so desirable for the purpose mentioned, with Las Vegas. Denver is too hot in winter, San Antonio is too awfully hot in summer. Neither place has the altitude, the dry atmosphere, the abundant crop, the temperate climate, the health record, which Las Vegas has. The influential Jewish residents of this city should see to it that the unexcelled advantages of Las Vegas shall be brought to the attention of the B'nai B'rith.

THE ONLY CLIMATE ON EARTH!

The Healthfulness of Las Vegas and Vicinity Aply Set Forth by a Resident Physician of Experience, Information and Standing.

THE HEALTHFULNESS OF LAS VEGAS.

FRANCIS H. ATKINS, M.D., Secretary New Mexico Medical Society; Secretary New Mexico Territorial Board of Health; Member American Climatological Association.

(Specially Prepared for this Territory.) Eastern people, the physicians, as well as those unlearned in medicine, often hear of the wholesomeness of the climate of the dry plains of the southwest, and the adjacent habitable mountain regions. But I am satisfied that few of these have any just conception of what we residents know and experience here, from year to year, in continuous, protracted residence, as to the absence of a host of diseases, commonly prevalent in the mountainous regions of the east.

The United Scandinavian singers of America met in Boston, Mass., in annual convention, to-day. The program includes an extensive musical festival lasting for several days. There was a school burst in the neighborhood of Haverly and Iron, Neb., causing five wash-outs on the Burlington railroad. One wash-out is about 150 feet long and fifteen feet deep.

A letter from President Cleveland will be read at the Territorial society Fourth of July celebration. It is said that he touches briefly upon the financial and political condition of the country.

Just thirty persons were assembled at East Turner hall in Denver at 10 o'clock, yesterday morning, for the first meeting of the Colorado democratic mass convention for consideration of the financial crisis.

The iron mills of the Moorehead, McClean company, at Pittsburg, Pa., have been sold by the sheriff. The plant is worth over \$1,000,000, but went for \$11,000, just enough to cover taxes due and sheriff's costs.

The confederated Irish societies will hold a meeting of the Great Northern hotel, in Chicago, this evening, for the purpose of perfecting arrangements for the annual demonstration of the organization August 15 h.

A Berlin correspondent who has intimate relations with the Bismarck family says Bismarck has been suffering from great physical depression, combined with severe neuralgia in the face and is only able to take liquid food.

Despite the reward of \$5,000, offered by the West Side street railway company for the slayer of Charles Smith, the Chicago police, who were hunting for the murderer, yesterday distributed the deed to unknown parties.

State Commissioner of Insurance Waspole, of Colorado, has requested the attorney general to take all necessary steps to prevent the Great Western mutual aid association and Great Western mutual accident association from continuing business.

J. H. Vandever, treasurer of Polk county, Arkansas, claims to have been robbed of several thousand dollars July 1st is the last day for county treasurers to settle and the discovery of the alleged robbery just before the hour of settlement caused a sensation.

The annual athletic meet between the teams of the universities of Oxford and Cambridge is in progress in London, to-day. More than usual interest attaches to the event, owing to the possibility of an international contest being arranged between one or more of the American universities.

Governor McKinley, of Ohio, is spending the day in Chicago. Tomorrow, he will make an address at Sharpshooters' park, by invitation of the trades and labor assembly, which will hold its Fourth of July demonstration at that place. Vice-President Stevenson will also address the laborers.

James Foxwell, a carpenter residing in Plattsmouth, Neb., went to England, last winter, to establish his rights as claimant to one-third his deceased uncle's estate. A letter received there brought news to the Foxwell family that he had been victorious. The estate is valued at \$3,000,000.

The trial of J. H. Balfour, who has attained a world-wide fame in connection with the Liberator building society, and other colossal frauds, was to-day set for July 22d by Justice Colborne in London. Balfour's stealing ran up well into the millions and swallowed the savings of thousands of widows and others in poor circumstances. He was finally captured in Brazil, after a tedious search.

The Newmarket, England, 1st of July meeting opened under favorable auspices. The Prince of Wales, Duke of Cambridge, Mr. and Mrs. Croker, M. F. Dwyer and many other notabilities were present. In the trial plate of 200 sovereigns for three-year-old and over, "Ottoman" won, "Santana" second, "Virago" third. There were seven runners, including Dwyer's "Don Alonzo" with "Stimms" up. The American entry was not placed. The course was the Bandy mill.

The closing of the term of the Minnesota supreme court, to-day, was rendered notable by the conclusion of the case of Harry Hayward, who has been convicted of the murder of Catherine King. The decision of the court will not be made public for some days, but it is thought, beyond question, that a new trial will be refused. Hayward's recent application to the New York Life and Travellers' Accident insurance companies for the \$10,000 insurance on the life of his victim was made merely to bear out his claim of innocence.

male, wage-earning citizens, as in New Mexico. Wishing especially to mark the climatic merits of Las Vegas, I will add that with an average, in three years, of eighty-eight members in its lodge, the percentage of relief was only 5.5 against 7.7 in all New Mexico; or near 12 in Massachusetts, and it took four and one-half men to consume one week per annum, in sickness, as contrasted with three men per week, for all New Mexico, or one and an eighth for Ohio or New Jersey.

A certain lodge in Ohio, accidentally selected by me, relieved 23.5 per cent. of its members against 5 per cent. with us; or one week was lost for every one-half an Old Fellow in that lodge, to one week for four and a half members in Las Vegas—the Ohio lodge being nine times as sickly as my lodge. Here let me remark, that these humble figures are enhanced in value by the recollection that the average vitality of our community is decidedly diminished by the number of individuals or families, already weakened by disease or sinister inheritance, who have poured into our Territory, in search of better health; and that an unusually large proportion of New Mexico Old Fellows, being railroad men or coal miners, much of the disability has been from accidents. Olney left for Santa Fe, to attend a meeting of the Territorial dental board. "Skito" Lashley returned to Pueblo, this morning, after a week's visit to friends in the Meadow City. Dan Rodes set sail for the oldest city in the United States on his initial trip to the coast. Capt. L. C. Fort and Agapito Abeyta, Jr., went over to Santa Fe, last night, along with the rest of the crowd. Misses Elsie and Max, of Fort Worth, Trinidad, pieces of M. S. Carl's "Singing of Morning" visiting here, at there. G. C. Simmons, representing the Provident life insurance company, has gone across the mountains to Santa Fe. Misses Iron Davis, Mary Wiegand, Minnie Holzman and Annie Hunt set up for a Boston, to attend a picnic of the Redwood club. Frank Crosson, having attended the meeting of the insane asylum board, yesterday, left for home, on the midnight train. Legay, the prize fighter, who failed to do up the Las Vegas boy, has gone to Santa Fe to second Gallagher in his fight there, to-morrow. Richard Dunn left for Catalina, at noon; H. H. W. Beck took a business trip up the road; A. E. Esemann returned from his wool-buying expedition down the road. G. S. Fultenwider, who has been cashier for the Harvey House, at the Redder, is in the city, on his way to Chicago. His health has so much improved he is going back to live. X. Z. Stevens, grand master of the grand lodge, I. O. O. F., residing in Albuquerque, will visit the city on Monday, August 1st, for the purpose of visiting the Las Vegas lodge, No. 1. L. L. Beag, Albuquerque; Richard Dunn, Catalina, N. M.; Mr. and Mrs. Gerhardt, Ft. Sumner, N. M.; W. A. Curry, Mt. Hope; Kanaser R. DeGroot, Puerto de las Animas, at the Plaza hotel. E. H. Salazar, Esq., Jaramillo, wife and children, Albino Abeyta and family, Pilar Abeyta and family, Mrs. Manuelita Jaramillo and Marjagita Baea were among the many who boarded the afternoon train for Santa Fe. A child of Ben Caldwell, local master mechanic, is on the sick list, suffering from summer complaint, an unusual ailment in this section. Mrs. W. S. Pratt and children left Trinidad for Prescott, Ariz., to join Mr. Pratt, who has a very lucrative railroad position at that point. Mr. James is down from Lebanon to spend the Fourth with his father and sister. He is now a mailman, having completed his term on the 1st of July. The heart of the Atchison, Kas., Globe goes out in tender sympathy to the brakeman who calls out the names of the towns in the teachers' excursion. The offerings he will have to endure for the way he pronounces the names of stations, are known only to those who have taken school teachers to box 6. For example, he will say "Saw-stick," which is the pronunciation universally used in Nebraska, but the school teachers will faint and whisper "Saw-stick," with the accent on the first syllable.

RUN DOWN WITH DYSPEPSIA STOMACH AND LIVER AND HEART AFFECTIONS. Almost in Despair but Finally CURED By Taking AYER'S PILLS

"For fifteen years, I was a great sufferer from indigestion in its worst form. I tested the skills of many doctors, but grew weaker and weaker, until I became so weak I could not walk fifty yards without having to rest down and rest. My stomach, liver, and heart became affected, and I thought I would never die. I tried Ayer's Pills and they helped me right away. I continued their use and am now entirely well. I don't know of anything that will so quickly relieve and cure the terrible sufferer of dyspepsia as Ayer's Pills."—JERRY C. DRYCHMAN, Booth, Warren Co., N. C.

AYER'S PILLS

Mrs. Withers, of San Antonio, Tex., mother of Mrs. J. L. Bullis, is at Santa Fe to spend the summer. She is accompanied by her daughter, Miss Anita, and son, Dr. Robert Withers. Free Pills. Send your address to H. E. Bucklen & Co., Chicago, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are easy in action and are particularly effective in the cure of constipation and sick headaches. For malaria and liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from deleterious substances and to be purely vegetable. They do not weaken by their action, but by giving tone to the stomach and bowels, greatly invigorate the system. Regular size, 25 cents per box. Sold by Winters Drug Co.

Mrs. Vincent Romero, mother of Mrs. A. J. Bass, of Springer, died near Los Lunas, aged forty-seven years.

Among the numerous persons who have been cured of rheumatism by Chamberlain's Pain Balm, mention should be made of Mrs. Emily Thorne, of Toledo, Wash., who says: "I have never been able to procure any medicine that would relieve me of rheumatism like Chamberlain's Pain Balm. I have also used it for lame back with great success. It is the best medicine I have ever used, and I take pleasure in recommending it to my friends."
