NEXT ANNUAL MEETING

AT ATLANTIC CITY, N. J.

701 Medical Arts Building  
Philadelphia, Pennsylvania

Dr. Florence R. Sabin  
Rockefeller Institute  
New York, New York

Dear Dr. Sabin:

I was disappointed by your note of September 22nd  
but also interested.

As a matter of my own adult education, I should  
very much like to know the reasons why you do not see the  
wisdom of maintaining one medical school controlled by  
women in the United States today.

If you would be willing and would take the time  
to explain your position to me, I should be very grateful.  
Personally it seems to me that one of the approximately  
ninety medical schools of this country might reasonably be  
controlled by your sex and mine. I should greatly appreciate  
the favor of your reply.

Cordially yours

September 28, 1936
