

Macfarlane, C.

October 9, 1936.

Dear Doctor Macfarlane:

In reply to your letter of September 28th, I have no desire to enter into discussions on the question of the desirability of maintaining a medical school run by women. You asked me to serve on your committee and therefore I had to reply to your letter that I did not find myself able to become a member of it. I do not wish to influence anyone either for or against such a project.

Cordially yours,

Florence R. Sabin.

Doctor Catharine Macfarlane,
