My dear Miss Sabin.

I cannot deny myself
the pleasure of writing to you to say
how greatly pleased I was this morning
to read of your election to the National
Academy. Dozens of people are writing
to you I have no doubt & some of them
will say how fine it is that such an
honor should have come to a woman.
My pleasure is derived from the fact that
the honor is given to Miss Sabin & to her
work - for both I have the highest
admiration & (I hesitate to use the
word) reverence.

Ever yours sincerely
A. N. Richards.
