CHARLES R. DREW, M.D., *Medical Supervisor*

*Hello My Sweet*  
"Just got word that  
I passed the American Board of  
Surgery written examination.  
That is quite a Christmas present.  
To make this day very happy  
we just received a cable from England  
stating that since the standardization  
of techniques (that's when I took over here)  
no more infected material has arrived  
in England.  
See you Saturday  
Love, Charlie
