Brennan needs for advice, not
direction.

on the agenda

The next 2 items are assigned to me, but I have asked appropriate members of my staff to make the presentations because they have the daily responsibility for administering them.

With regard to 3d part, Reimb a new policy is being proposed ^{and} I think you will find ^{Mr. Roger Miller's} presentation most interesting. ~~As you listen to Mr. Roger Miller's presentation you may detect one of the main reasons for its popularity to exist existing 3d party sources in becoming more realistic or realistic (18 & 19). While the policy is only in proposed state, we are being requested to implement those portions that we can accommodate within our structure. Mr. Miller will touch on this & other elements in his brief presentation - Roger~~

We thought it appropriate at this juncture to give you a brief resume of the Mgmt. Survey, activity of RMPs. Subsequent to my joining the PMB of RMPs in late 1970, Dr. Margulies arranged for the survey function to be ~~redefined~~ assigned to the Branch. It has now become an ~~important~~ important element of the total review process, and the complexion of the survey has changed. It has gained recognition in the Admin & Sec Offices ~~because~~ ^{and} it is used by the Dept. Audit Agency, and ^{also by} the staff in OGAP in ~~its~~ ^{its} concerns ~~relating to~~ ^{for} improving the quality of grantee mgmt. Mr. Tom Simmonds and I are both graduates of the VA's internal audit program and ~~consequently~~ speak the same language. We will present a brief interesting story of how we got to where we are today in surveying the mgmt activities of our grantees and RMPs. - Tom -

NAC
10/16

Dr. Stone

Dr. M. Jan date set for quality of care
in St. Louis

Mrs. Mars - Consider limit to rebudgeting.
10,000, 20,000 or something
