Attached draft for Bureau pamphlet.

I strongly advise
against publication of
any nonsense like this.

- a. All Bureau legislation -
manpower - CHIP - Hill-Burton
BMP - is currently under con-
sideration in Congress
- b. Endicott has stated publicly
that he intends to form
a new Bureau if legislation
passes
- c. BMP is still officially
in BHSR
- d. The introduction is written
in such a way that one
would think the entire
Bureau consists of manpower
activities. Development, planning
construction are brushed off
- e. The paragraph on BMP
was written by me for a
functional statement that was
needed during the placemat
period. It is no longer
accurate and publication would
be contrary to Court Order
