Dear Beets -

I would be happy to fill in or
whatever you wish to follow your
lead in a piece for the A/P/S. Why
don't you just send me a rough draft
and I will do the detail work, references,
etc., and send back to you (and
I will add my own stuff for post 1946)

PERSPECTIVES AND HORIZONS IN MICROBIOLOGY

A Symposium edited by Selman A. Waksman

Rutgers University Press, New Brunswick, N. J.

1955

The Lincoln + Brown paper was
quite vividly in mind at least
since 1945. Dubos cited it in
his book "The Bacterial Cell".
