

~~Oct~~ Nov 3

Dear Josh: the insides of 2 strains tested  
from *Agophil* aren't disturbed as they used to be! viz.  
453 + 410 require only leucine! Do you have *N. cultures*?

Hope to send mutants in C<sub>1</sub> soon. Also hope on our  
transformations - I'm glad to hear I'm subscribed  
to *Deliver* - news to me or why don't I get outlines, if so?

Paul + I think "solution" of *inc.* problem slight  
exaggeration!

No real news otherwise - thesis is in progress -  
regards to Esther

Yours  
Ead
