

Thanks: I have some things to print.

March 12

Dear Jack:

This copy is on the way. Don't forget to collect \$1,50 from Bob H. when you're here. April 23?, right?

Did I answer your question re customers that Snell wanted to work on - by all means, go ahead, we won't get at it in any predictable period.

There is some money left to credit of Childs Fund, so some reprints can be paid for from this. Did say 100 which will be all necessary for me + fund copies. OK?

Will any transformable R get or work from Bowen? We can't get significant economic tests between  $C_1$  +  $C_2$ ! (H?)
