

1230 YORK AVENUE · NEW YORK, N.Y. 10021

10/2/79

Dear Best Brown

I was very glad to hear from you; however I am intricately tied up on the 17th and must say "no" this time. I hope Lew will brief me on the meeting. The theme is of great interest to me in several dimensions.

I surely will see you out; but meanwhile when you are in NYC I hope you will plan to drop by.

Yours,
John

P.S. Why didn't you focus on a theme of major public health importance like schizobacter?
(I guess I am not that optimistic about how the
regulation can go as a practical matter.)
Architecture is harder than chemistry.
