September 13, 1949

Dr. Joshua Lederberg
Department of Genetics
University of Wisconsin
Madison 6, Wisconsin

Dear Doctor Lederberg:

The Board of Scientific Advisers has expressed a wish to be kept informed of the work being done by men who have formerly been fellows of the Fund. They would, therefore, appreciate hearing from you giving your present location and position, line of investigation in which you are engaged, list of publications and any other information which you think might be of interest.

We would like to secure this information as soon as possible so that a report on fellows could be included at the next meeting of the Board of Scientific Advisers in October.

Sincerely yours,

Elizabeth M. Mester
Secretary
