Stanford University School of Medicine
300 Pasteur Drive
Palo Alto, California

Dear Josh:

Many thanks for the two Kodachromes of the Moore family in the airport in Zurich. They will be nice reminders of the occasion. Sally also took several shots and one of you was excellent. However, there is not the slightest chance in the world of your ever getting it because I am also included in the photograph and, as she so delicately expressed it, that is as close as ^{she} ~~I~~ will ever come to the Nobel prize.

It now looks as though Cy Levinthal will surely be joining us. I am very glad of this and hope that it will be one step in the re-emergence of the Department as a useful center in biological research and teaching.

Sincerely yours,

John A. Moore
