Dear Josh,

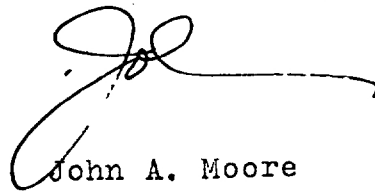

The Oxford University Press people are anxious to start sending "Readings in Heredity and Development" through production.

Have you had additional thoughts on whether or not you wish to revise your 1966 American Naturalist paper, "Experimental Genetics and Human Evolution"? It is fine as it stands -- it would be impossible for you to write anything in this area that someone would not misunderstand.

Have also cleared the question of permission with the University of Chicago Press, even tho the Naturalist was not copyrighted at that time.

Please let me know as soon as you can.

Sincerely,

John A. Moore

JUN 29 1971

Dear Johnny-- I would very much appreciate your including the marked passages attached as a postscript. I ~~am~~ apologize for have let this go by so long.

Yours

Joshua Lederberg
