REMARKS

*Thank you for the M. Baden review from  
Dr. Jul. Phil. Sci. I am circulating it.  
I had seen it and written to her  
because I felt she had misrepresented  
us. The letter is attached. I had  
another long chat with her at the  
IVCAI and consider her an intelligent*

*and sensible critic. She is  
beginning work on a book about  
AI for non-technical people and  
has asked if I would comment  
on drafts of chapters. (Gladly).*
