AIDS

Dr. Pablo Rubinstein  
Senior Investigator  
Human Genetics  
New York Blood Center  
310 East 67th Street  
New York, New York 10021

Dear Pablo:

RE: MHC compatibility and HIV transmission

Dr. Fauci told me he knew of no study of this point. But he does have available clinical material (? blood,...?) from their studies on spousal/maternal transfer if. e.g., you wished to type them to look for a correlation.

*Would you be interested?*

Yours sincerely,

Joshua Lederberg
