

to Dr. Lederberg

OCT 18 1971

From the Desk of

10/14/71

David M. Mumford, M.D.

Just to say - I haven't evaporated  
in to their air! Mr. Ray, our sponsor,  
has had some "Gyn" difficulties  
which though quiescent may require  
a D+C. She is still quite eager to  
go to San Francisco in November  
or December to gather a group of  
individuals who may be willing  
to give support to the Center  
Concept -

I recall, November was not a  
particularly good month for you,  
but as soon as the local signals  
clear - I'll try to get in touch  
with you to see if there are any  
mutually agreeable dates -

- David
