

FOOD AND DRUG ADMINISTRATION

Associate Commissioner  
for Policy Coordination

August 21, 1979

NOTE TO: Joshua Lederberg  
President, Rockefeller University

Now that I have returned to my natural habitat, I just wanted to let you know that I was delighted to meet you at the Defense Science Board summer study in Newport. I am sorry we were unable to continue our conversation about educating policy formulators, but perhaps that can still be done.

On another topic, I've just finished reading the cover story in this week's Newsweek. I found it rather edifying, both as an adjunct to my own education, and as a bellwether of public interest in a rapidly maturing field. I couldn't help wondering if such an article produces a noticeable ballooning in inquiries at the Office of Admissions?!

Sincerely,

*↓ Ellen Williams*
