

Dr. Henry Woolf. ↓

MAR 25 1981

Thank you  
for sending me the Einstein  
Commemorative and the (most  
impressive!) directory of 50 years  
of the Institute.

---

I was briefly puzzled by the  
inclusion of other texts - sample  
attached. — in some redundancy

I wondered if you were continuing our  
Kabbalistic discussion!

Finally it was clear that these  
were signatures of "The Symbolic  
Quest" presumably just another  
paper used for wrapping!

Where we must look in our quest  
for meaning!

Yours,  
Henry Woolf

P.S.

Please let me know next time  
you're nearby and we could have  
an hour together

I need some counselling on how  
to think about international  
cooperation + development.

John.
