Josh: Am now waiting for
Sonia. I have good news! My
grant application to NCI has a high
rating & Dr. Lieberman in the Immunology
Section tells me that it surely be
approved by the Panel May 11-13.

I can be made effective as early as
June instead of August.
Under the letter I framed
for Bob Good did the trick.
There's more for us to discuss
and I'll try to have your girls give me 10-15
minutes if at all possible before our
conference on Tuesday April 29th

Here is a copy of the book
containing the papers of the 5 day Aspen
Conference August 1978 - all in my honor.
This copy will be replaced by a bound
copy

See you to-mite
