

Memo/Reply From  
JOSHUA LEDERBERG

TO: Jerry Lendstrom  
BROE

Dear Jerry

JAN 12 1981

How nice to hear from you.

Yes I think I would be delighted to meet with your group. Especially if I can pin down a fixed date on 5 to 7 weeks advance notice: is that feasible for you?

I would prefer an audience just like BROE but have no objections to others of like audience. (I don't lack opportunities to meet with academics.)

As to topics, let me save time by enclosing some writings. I could talk off ~~on~~ any of those issues. I am also preparing a couple of articles or (a) contributions of biomedical practice to basic science (sic); ditto toxicology and (b) what basic research actually has to do with health ~~in~~ technology and health improvement.

TO:

Do you have any day of week or month as categorical or preferred for your meetings?

It will be good to see you,

Josh,

Josh,
