

April 3, 1969

Dr. W. E. Razzell
Professor and Chairman
Department of Microbiology
The University of Alberta
Edmonton 7, Canada

Dear Bill:

I am sorry to learn of Mary's continued hard luck, and can understand the conflict that this has put you in. Of course I am happy to be available for reference and will reply promptly if I am consulted.

Will you consider Seattle? The position may have been filled, but I had an inquiry not too long ago for suggestions to succeed Evans, and I would be happy to put your name in if you might be interested. If so, please send along a revised, up-to-date curriculum vitae that I can use too.

All the best of luck.

Sincerely yours,

Joshua Lederberg
Professor of Genetics

RAZZELL
