Dr. Joshua Lederberg  
President  
1230 York Avenue  
Rockefeller University  
New York, NY 10021

Dear Josh:

It has been many years since we last talked and I have thought many times during that period of your helpful comments to me regarding my research.

I am currently organizing a symposium on "Metaphor in Science" for the next meeting of the American Association for the Advancement of Science in New Orleans, February twelfth through fifteenth, 1990 and wondered if you might be interested in participating. I have asked Gerald Holton to contribute his perspective on metaphor in physics and wondered whether you would consider doing a similar task for biology. Other participants will be a philosopher and a cognitive psychologist who have contributed extensively to the understanding of metaphor and metaphorical communication.

With best wishes and thanks in advance\* for your kind reply,

Sincerely,

Albert Rothenberg, M.D.
