

Memo from  
JOSHUA LEDERBERG

To: Sarge Shriver

Child Health Inst.

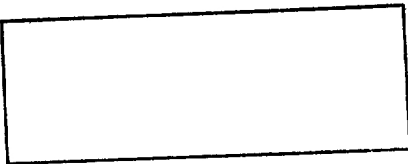

Dear Sarge -

It is my privilege to sign  
this; and I certainly don't  
want to rock the boat.

However, if it doesn't  
go through, I really think  
the basic science unit also  
would be still better if it  
could be located at a university  
center rather than on the  
already huge NIH campus

as  
you've said,

Yours.  
Josh.
