8 JULY 1977

DEAR DR LEDERBERG —

THANK FOR YOUR NOTE —

1. REPRINT ENCLOSED
2. I AM PUBLISHING MORE ON NERVE AXON — ALSO ON OXYGEN-HEME ASSOCIATION. ONE PUBLISHED PAPER IS ENCLOSED — ANOTHER IS UNDER REVIEW ^(BIOCHEMISTRY) — ANOTHER AXON PAPER WILL APPEAR IN BIOPHYSICAL JOURNAL IN SEPT 1977.
3. TISZA IS MY FRIEND & COLLEAGUE. HE HAS A PAPER WITH ^{SOMETHING LIKE} THIS STATEMENT IN J. AMERICAN PHILOSOPHICAL SOCIETY IN PRESS.
4. TO MY TASTE, THE WORK DIRECTED TOWARD FOUNDATIONS OF BIOLOGY IS MISDIRECTED. IT PLAYS WITH MATHEMATICS AND THEORIES WHOSE AXIOMATIC BASES ARE MIDWAY BETWEEN $F=MA$ AND "GOOD", "TRUTH" AND "BEAUTY"! SEE FOR EXAMPLE, "TOWARDS A THEORETICAL BIOLOGY". IUBS SYMPOSIA WASHINGTON ED. — STUFF LIKE THOMAS AND ZEEMAN ON CATASTROPHE THEORY — (LIBCONG # QH301.T737)
I'D LIKE TO KEEP IN TOUCH ...

MWP STRANDBECK (PTO)

P.S. — IS BRONOWSKI'S IDEA ^{CORRECT} THAT MENDEL

WAS NOT LOST, BUT WAS SUPPRESSED

BECAUSE HIS WORK HAD AN A PRIORI

THEORETICAL BASIS? I FEEL

THERE IS SO MUCH TO SUPPORT THE CASE —

FOR A DECADE AT THE TURN OF THE CENTURY

BIOLOGY LET PHYSICS IN..... THEN THE FLOOD

OF EXPERIMENTAL EMPIRICISM TURNED PHYSICS

INTO A LAB TOOL AND NO LONGER A

SENTIENT PARTNER.....
