

Memo from

To: Howard Tatum

JOSHUA LEDERBERG

NOV 2 1978

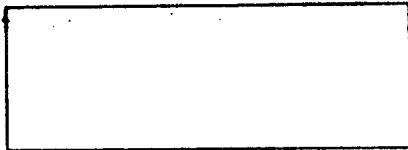

Ed at Utrecht

of course, as I now realize, Ed recorded in his Nobel lecture that he worked with Höggl and met Fries there. This is the only detail I have.

John.

Do you know whether Ed ever contemplated (as you yourself did) a career in medicine or medical research? I am of course, think of your father's influence on career orientation.

J
