How time passes!

Dear Bill -

I realize with a startle how long since we've had a chance to get together. How about lunch when you're in?

My lab is going well, and I'd be eager to tell you more detail. And I do have a DARPA grant now for the computer science part of the work.

I'd hoped to "retire" from DSO etc. but keeping nuclear and BW weapons out of the hands of the crazies is too urgent so I'm still on the Washington 'National Security circuit.

Hope you're well.

Yours,
Joshua
