Re - 486

Is there a path for its develop-  
ment in the U.S. ?

If not, I'd like to connect some  
venture capital people with <sup>you and</sup> Planned  
Parenthood in some way to try to  
get a free-standing venture started  
that would not be vulnerable to the  
intimidation directed at a large  
organization.

What do you think?
