MEMORANDUM
JOSHUA LEDERBERG

Steve McKin

SEP - 6 1990

Dear Steve

Thank you for your nice letter. My wife Marguerite and I enjoyed it; and we'd love to discuss it with you on the 29th Nov. We'll hold the date if central we hear more specifics.

Yes, we know and enjoy + (see Asimov + his writings); but my interest in space travel long predates his books. And the Ken Arnolds are among our close friends in Palo Alto.

I'm glad you're enjoying science even vicariously.

We look forward to seeing you - and the books you mentioned.

Sincerely

McKin
