

Memo from
JOSHUA LEDERBERG

To: Arthur Koell
FEB 27 1953

re Gene duplications
Thank you for the
reprints.

Duplications of genes for
evolutionary diversification
probable well before Lewis '51.

See my paper in Heredity
2:145 (1948) @ p. 188
for a particular twist, and
citations to earlier suggestions
(Metz, Weir, Beijerinck).
