

Memo from

To: John S Lambert

JOSHUA LEDERBERG

MAY 26 1971

Thank you for the refererences.

I hope this catches you before you leave. ~~XXXXX~~
~~XX~~ How long
will you be at Macquarie?

While you are in Australia, I hope you have a chance to meet F.M. Burnet (emeritus director of the Hall Institute in Melbourne)-- perhaps through Gus Nossal (director now, and a long-time friend of mine). They have given a great deal of thought to questions of "futurology".

I will forward some publications etc from time to time.

Don Michael (do you know "The Unprepared Society" has also been chiding me to attend to the ambiguities of social values before embarking on the Prom-Sisiph. enterprise. He pushes Novak and Slater.

J.R. Platt will be at the Center in 71-72. The NSF has funded the new program, officially as of Sept. 72.

Good luck, and enjoy the surfing,

Sincerely,

PROFESSOR JOSHUA LEDERBERG
