

MEMO FROM
LEDERBERG
GENETICS DEPARTMENT
STANFORD UNIVERSITY
STANFORD, CALIFORNIA

TO: *Luca*
Salva.

TX
RC
RO

OCT 9 1970

You inadvertently sent me the enclosed in-
stead of the Mexico City text, and I would be
interested to see that. What I have heard
so far is gratifying, and I am glad to know how
your energies were directed.

There was a query on 'toxins' herein; perhaps
you had not seen the amendment that the US
delegation proposed with UK approval. Toxins
were also mentioned by Rogers, a/c to this text
in the NY Times.

You struck a right blow at ~~XXXXXXXXX~~ Mitchell
in your letter to the NYT 9/26.

Yours

J. Lederberg
