Dear Salma:

"The penicillin method" - old history

Do you have any <sup>secure</sup> recollection of

that encounter? Was it at Madison

(or Chicago or Urbane)? Do you

have any way to date it?

When, where had you heard about  
it from Bernie?

I have no other record or recollection  
myself. The incident is interest-  
ing in many ways, including  
the communication network of those  
days.

all the best,

John
