Dear President Lederberg:

Thank you for sending me a copy of your article on Scientific Communication in New York City. I look forward to reading it. I am responding, as you requested, with a copy of my own lecture at the Columbia conference on Culture, the City, and the University.

Sincerely,

Tom Bender ✓

Dear Dr. Bender -

I hope you enjoy comparing our mas. as much as I did. More than anyone else we know that I was uninformed by your perspectives when I wrote my piece --- all the more interesting the occasional echoes of themes for which you provide the cultural-historical background!

Please let me know if or when you publish this article or others related to the university in the metropolis.

Sincerely,

Jan Lederberg
