

Memo from
JOSHUA LEDERBERG

To: Dr. Marvin Goldberger
Dept Physics
Princeton U.

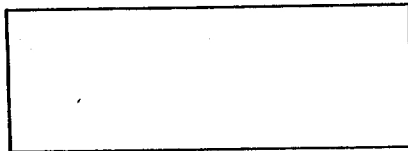

Best wishes

MAR 9 - 1978

I was pleased to see the news of your acceptance of the presidency of Cal Tech; and I am sure you can understand my sense of symmetrical affinity as we prepare to exchange "coats", east for west.

after we have both settled in, I hope we can have some occasion to exchange notes; and if you find yourself in New York City I hope you will visit; or let me know any way that Rockefeller Univ. can be helpful to you.

Yours cordially
John.
