Department of Medical Genetics

May 17, 1957

Dear Barbee:

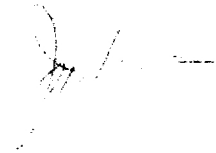

I checked with the business manager about the travel expenses. He told me Bowers had cleared it before he left, and the check should have been mailed to you (at Oak Ridge!) some few days ago. I'm sorry to have caused you the extra trouble about the vouchers. [I'd appreciate your letting me know if he came through with both your expenses; I didn't want to press the point, having forgotten about that when it first came up now.]

What I meant about addresses was to leave off 'Medical School' for the time being; I haven't educated the mailmen yet to the fact that the Department of Medical Genetics is housed in the same building as Genetics. Our home address is 507 Eugenia.

Is it really so that MATS flies nonstop direct from Manila to SFO? I thought they almost always ~~refueled~~ refueled en route, even though this doesn't show on the operational schedules. I know that at least the commercial (NWA) route to Tokyo stops both at Anchorage and at some one-acre island at the end of the Aleutians.

Do let me know if you don't get the check quite soon. Give my best to Kim when you write him next.

Yours,

A handwritten signature in dark ink, appearing to be a stylized name, possibly 'J. B. ...', written over a light-colored background.
