substitutes has left me with a backlog
I am just now digesting. But be
assured I am now quite well again.

At any rate, I hope your first
conference did go well; that you
will forgive my lapse; and that
we may continue to stay in touch
personally and around the very same
issues.

With best wishes

Tanytown Conference

Dear Geenan -

Last Oct. 28 you was kind enough
to write me about your conference on
ethics and Jewish life.

It was gauche of me not to respond.
I had hoped to about Churfar's - frankly
undecided whether the political
orientation of your first conference was
one I wished to engage.

Then before I could come to grips
with reaching a decision, I unfortunately
was laid low with a cerebellar
problem which was quite miserable
for several weeks. Fortunately, it
resolved itself without need for surgery;
but the loss of time and the enforced
interruption of various other projects
