Cable Address "Dulac"

Dear David:

I would be very happy to maintain my record of helping to install presidents at The Rockefeller University, especially Joshua Lederberg.

I would be happy to supplement the formal invocation with a few remarks on science and human development, especially since I just returned from visiting ten countries on that theme. I take it that the remarks could be concluded by a brief invocation and that in the whole matter we are talking of five to ten minutes. If I am mistaken in this assumption, I trust you'll let me know frankly, as I would only want to do what is fitting and proper on this occasion.

All best wishes.

Sincerely yours,

Mr. David Rockefeller
