

Memo/Reply From
JOSHUA LEDERBERG

TO: Bill Hubbard ↙

JUN 9 1980

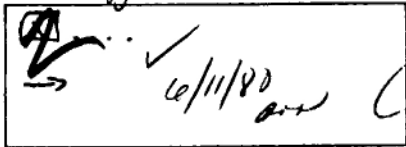

PMA sponsored study of
drug development.

Dear Bill:

Has this been lost in the mail? Or is the ball in the wrong court? At any rate I have not received the letter that I could use to start the ball rolling here. It is problematical whether I can convince the Elbowder + marching group in full quorum now before September.

Good news: I called Ken Melman: he is very enthusiastic about the idea, which certainly heartens me. And he will be able to put some time in if asked.

I will be in Palo Alto for some weeks this summer and could use some of that time to good effect to consult with Ken.
