Dear Wayne

MAY 14 1980

I did talk to Dr. Press about
Cancer funds etc. He felt as I do
that a national conference sponsored
by NCI / Panel / Board is the best
approach. If that doesn't work out,
Frank would consider asking the President
to mount a full scale presidential com-
mission. I will discuss this with
NCI next week, and may come back to
you about possibility of funding support
(upstart) from industry.

Yours,
J. J. J.
